

## AMR CLARIFICATION

Some clarification work has been carried out on the sites used to calculate indicator M14 (Number of nursing and care homes delivered between 1 April 2016 to 31 March 2017).

Sites which were incorrectly classified as C2 have been removed from the figures. Inputting errors were noted during the clarification process. This has been rectified and final figures altered.

The figures for 1 April 2016 to 31 March 2017 have therefore been amended:
