Key Diagram PC/86	Amend the Key Diagram to show Lenham as a broad location in addition to its Rural Service Centre status, and reflect the change in the legend of the Key Diagram.	Main	Reflection of a change in approach for Lenham Rural Service Centre as a Broad Location (Policy SP8 and H2(3)), which is required to demonstrate the Local Plan has been positively prepared, <u>consistent</u> <u>with national</u> <u>policy</u> is justified and effective.
Introduction paragraph 1.17	Amend paragraph 1.17 and move to paragraph 4.1 to state:		
and Policy SS1 supporting text	1.17 The policies within the Maidstone Borough Local Plan comprise:		

		been identified. The strategic policies are contained within this chapter and set out the overall approach towards providing new		
		homes, jobs, infrastructure and community facilities over the plan period to 2031. These policies form the basis of this Local Plan's		
		policy framework, as well as providing the core principles that planning applications and Neighbourhood Plans are expected to adhere		
		to. The Strategic policies set out:		
		• The borough wide spatial strategy which sets development targets; and explains the factors that influence the distribution of		
		development;		
		<ul> <li>Spatial policies that focus on Maidstone urban area, Maidstone town centre, rural services centres, larger villages and the countryside;</li> </ul>		
		<ul> <li><u>A settlement strategy for the direction and distribution of development across the Borough, amplified by a series of area based</u></li> </ul>		
		strategies for Maidstone urban area, the rural service centres, larger villages and the countryside;		
		<ul> <li>Specific site allocation policies that set criteria for development sites: housing (including future broad locations for growth),</li> </ul>		
		Gypsy and Traveller pitches, employment, retail and mixed use;		
		<ul> <li>Development management policies that apply across the borough, within Maidstone urban area, Maidstone town centre, rural</li> </ul>		
		service centres, larger villages and in the countryside which focus on delivering the spatial strategy and set criteria against		
		which planning applications for development will be determined; and		
		• Requirements for open space, broad locations, employment and gypsy and traveller allocations;		
		<ul> <li>Strategic policies for housing mix, affordable housing, economic development, retention of employment sites and sustainable</li> </ul>		
		transport; and		
		<ul> <li>An <u>A strategic</u> infrastructure delivery policy which explains how infrastructure required to support new development will be</li> </ul>		
		delivered.		
		denvered.		
		4.2 The strategic policies in this chapter are underpinned by strategic site allocation policies (set out in chapter 5) which detail		
		specific site based criteria for new development ( housing, employment, Gypsy & Traveller, retail & mixed use and employment)		
		against which planning applications for these sites will be determined.		
		1.2 Charter C acts but the development menorement religion to be used by the second is below to determine individual elements		
		4.3 Chapter 6 sets out the development management policies to be used by the council in helping to determine individual planning		
		applications.		
		4.4 Chapter 7 sets out the monitoring and review for the Local Plan to ensure that the plan is delivering the amount and type of		
		development that is required by the strategic policies.		
		Housing and economic development targets		
		4.15 One of the principal aims of the local plan is to set out clearly the council's proposals for the spatial distribution of development		
		throughout the borough based on the vision and objectives of the plan. This section determines the housing and economic		
		development targets for the plan period (2011 to 2031) and describes the council's approach to the distribution of development. The		
		justification for this approach has been derived from

		Amend Policy SP6(2) as follows: Key infrastructure requirements for Yalding include:		requirements, and to ensure the Local Plan is positively

		<ul> <li>(i) Improvements to highway and transportation infrastructure will be made in accordance with individual site criteria set out in policies <u>policy</u> H1(67) and RMX1 (4). Key schemes include junction improvements, a variety of measures to improve sustainable transport infrastructure, and improvements to pedestrian access.</li> <li>(ii) <u>Improvements to health infrastructure including extension and/or improvements at Yalding GP Practice.</u></li> <li>(iii) A minimum of 4.4 hectares of publically accessible open space will be provided."</li> </ul>		prepared. Interim Findings - Delete RMX1(4) for 200 dwellings
Policy SP16 Inset Map	PC/20	Key to SP16 Yalding Map – add "Local Retail Centre" to legend	Minor	Amend due to cartographical error
Policy SP17 and supporting text	PC/128; Action 11.6	Amend SP17 as follows POlicy SP17 The Countryside The countryside Kent Downs Area of Outstanding Natural Beauty and its setting 5.77 A large part of the northern part of the borough lies within the Kent Downs Area of Outstanding Natural Beauty (AONB). This is a visually prominent landscape that contributes significantly to the borough's high quality of life. It is an important amenity and recreation resource for both Maidstone residents and visions and forms an attractive backdono to settlements along the base of the Kent Downs Area of Outstanding the creat weight affording in national habitats and biodiversity. Designation as an AOR Confers the highest level of landscape protection and one which the council has a statutory duty to enserve and enhance—have regard to the purposes of the designation including the great weight affording in national policy to its conservation and enhancement [1]. Within the AONB, the Management Plan provides a framework for objectives to conserve and enhance conserving and enhancing the natural beauty of the area. The council has adopted the Management Plan and will support its implementation. Open countryside to the immediate south of the AONB forms a large extent of the setting for this designation. In Maidstone this is a sensitive landscape that is coming under threat from inappropriate development and is viewed as a resource that requires conservation and enhancement where this supports the purposes of the AONB. 5.78 The council will ensure proposals conserve and enhance the natural beauty, distinctive character, biodiversity and setting of the Kent Downs AONB Management Plan, supporting guidance and position statements. Foromic development within the AONB should be located in existing traditional buildings of historic or vernacular merit in smaller settlements, farmsteads or within groups of buildings in sustainable locations. 5.79 New development in the AONB should demonstrate that it meets the requirements of national policy. needs to respect the vernacular architecture, set	Main	Changes required for consistency with national policy for rural development, landscape and Green Belt, and to ensure that the policy is justified.

which would affect the setting of the AONB are not subject to the same level of constraint as those which would affect the AONB
itself. The duty is relevant to proposals outside the boundary of the AONB which may have an impact on the statutory purposes of
the AONB. The weight to be afforded to potential impact on the setting will depend on the significance of the impact. Matters such as
the size of proposals, their distance, incompatibility with their surroundings, movement, reflectivity and colour are likely to affect
impact. The Kent Downs AONB Management Plan advises that 'where the qualities of the AONB which were instrumental in reasons
for its designation are affected, then the impacts should be given considerable weight in decisions. This particularly applies to views
to and from the scarp of the North Downs.' It is considered therefore that it is not necessary to formally define the setting of the
Kent Downs AONB and that the impact of development can be appropriately assessed through the criteria of the policy.
Metropolitan Green Belt
5.83 Green Belts afford protection to the countryside from inappropriate development, and policies for their protection are set out in
the National Planning Policy Framework. A small area (5.3km2) on the western edge of the borough is included within the
Metropolitan Green Belt. The designation extends up to the borough boundary, contiguous with the Green Belt boundary in Tonbridge
and Malling Borough Council's administrative area; and lies between Teston and Wateringbury and west of the River Medway, which
includes the settlements of Nettlestead and Nettlestead Green. The Council has undertaken a review of its Green Belt boundary
(Maidstone Borough Council Metropolitan Green Belt Review, January 2016), which concluded there were no exceptional
circumstances for revising the Green Belt boundaries within the borough.
Landscapes of local value
5.88 The Low Weald covers a significant proportion of the countryside in the rural southern half of the borough. The Low Weald is
recognised as having distinctive landscape features: the field patterns, many of medieval character, hedgerows, stands of trees,
ponds and streams and buildings of character should be protected, maintained conserved and enhanced where appropriate.
Policy SP17
The Countryside
The combine ide is defined as all these sectors filler are solution while solutions of the Meidelen solution and
The countryside is defined as all those parts of the plan area outside the settlement boundaries of the Maidstone urban area, rural
service centres and larger villages defined on the policies map.
1. Provided p-Proposals which do not harm the character and appearance of an area and accord with other policies in this plan,. the following types of development-will be permitted in the countryside
i. Small-scale economic development, including development related to tourism and open-air recreation, through:
1. Small scale economic development, including development related to tourism and open all recreation, through.
a. The re-use or extension of existing buildings;
b. The expansion of existing businesses; or
c. Farm diversification schemes; <u>or</u>
ii. Small-scale residential development necessary to:
In Small scale residential development necessary to.
a. Meet a proven essential need for a rural worker to live permanently at or near their place of work;
b. Meet a proven need for Gypsy and Traveller accommodation; or
c. Meet local housing needs; and
iii. Development demonstrated to be necessary for agriculture or forestry
iii. Development demonstrated to be necessary for agriculture or forestry.
2. Where proposals meet criterion 1, development in the countryside will be permitted if:
i. The type, siting, materials and design, mass and scale of development and the level of activity maintains, or where possible,
enhances local distinctiveness including landscape features; and
ii. Impacts on the appearance and character of the landscape can be appropriately mitigated. Suitability and required mitigation will
be assessed through the submission of Landscape and Visual Impact Assessments to support development proposals in appropriate

		<ul> <li>circumstances.</li> <li>3. The loss of local shops and community facilities which serve villages will be resisted. In all cases, another beneficial community use should be sought before permission is granted for the removal of these facilities;</li> <li>2. <u>Agricultural</u> Pproposals will be supported which facilitate the efficient use of the borough's significant agricultural land and soil resource provided any adverse impacts on the appearance and character of the landscape can be appropriately mitigated;</li> <li>4. The distinctive character of the Kent Downs Area of Outstanding Natural Beauty and its setting, the setting of the High Weald Area of Outstanding Natural Beauty and the extent and openness of the Metropolitan Green Belt will be rigorously conserved, maintained and enhanced where appropriate;</li> <li>3. Great weight should be given to the conservation and enhancement of the Kent Downs Area of Outstanding Natural Beauty or the High Weald Area of Outstanding Natural Beauty;</li> <li>5. The extent and openness of the Metropolitan Green Belt will be rigorously conserved, maintained and enhanced where appropriate;</li> <li>5. The extent and openness of the Metropolitan Green Belt will be rigorously protected; Green Belt is shown on the Policies Map and development there will be managed in accordance with national policy for the Green Belt;</li> <li>6. The distinctive landscape character of the Greensand Ridge, Medway Valley, Len Valley, Loose Valley, and Low Weald as defined on the policies map, will be conserved, maintained and enhanced where appropriate as landscapes of local value;</li> <li>7. Development in the countryside will retain the setting of and separation of individual settlements; and</li> <li>9. Natural and historic assets, including characteristic landscape features, wildlife and water resources, will be protected from damage with any unavoidable impacts mitigated.</li> <li>Account should be taken of the Kent Downs Area of Outstanding Natural Beauty faangement Plan and the Maids</li></ul>		
SP18 - New Strategic Policy for the Historic Environment	PC/130	Addition of a new policy as follows: Policy SP 18 – the Historic Environment Maidstone borough has been shaped and influenced by a long past history, the legacy of which is a strong and rich cultural heritage. Brewing, paper making and shipping along the Medway have been notable industrial influences on the borough's heritage. The borough's varied geology has been the source of locally distinctive building materials, namely Kentish raastone, Wealden clay for brick and tile making and oak from the Wealden forests used in the construction of timber-framed buildings and weather boarding. The diversity of heritage assets is recognised through designations made at the national level by Historic England such as listed buildings, scheduled ancient monuments and historic parks and gardens and also those identified more locally such as conservation areas, the parks and gardens included in the Kent Gardens Compendium and locally listed buildings. The term 'heritage asset' is defined in the Framework and, in addition to these 'designated' assets, encompasses features of more localies significance, so called 'non-designated' heritage assets. Collectively these heritage assets contribute to the strong sense of place which exists across the borough. This historic inheritance also has wider economic, social and cultural benefits. The Archbishog's Palace and Leeds Castle are two particularly high profile examples which help to drive tourism in the borough. Mote Park is an historic park which both local residents and mistirs are also integral to the borough's high quality landscape, particularly enjoyed by users of the borough's extensive public rights of way network. This rich historical resource is, however, vulnerable to damage and loss. This importance is signified by the fact that heritage assets the Council will act to conserve and enhance the borough's heritage assets. Policy SP 18 - the Historic Environment To ensure their continued contribution to the quality of life in Maidstone borough, the characteristics, distincti	Main	Changes required to ensure that the Local Plan is positively prepared and justified, and to provide a positive strategy for the historic environment to ensure consistency with national policy.

	in particular designated assets identified as being at risk, to include;		
	o collaboration with developers, landowners, parish councils, groups preparing neighbourhood plans and heritage bodies on specific		
	heritage initiatives including bids for funding;		
	o through the development management process, securing the sensitive management and design of development which impacts on		
	heritage assets and their settings;		
	o through the incorporation of positive heritage policies in neighbourhood plans which are based on analysis of locally important		
	and distinctive heritage; and		
	o <u>ensuring relevant heritage considerations are a key aspect of site masterplans prepared in support of development allocations</u>		
	and broad locations identified in the Local Plan.

	1. Working in partnership with Kent County Council (the local highway authority), Highways England, infrastructure providers and		with national
	public transport operators, the Borough Council will facilitate the delivery of transport improvements to support the growth proposed		policy.
	by the local plan. An Integrated Transport Strategy, prepared by the council and its partners, will have the aim of facilitating		
	economic prosperity and improving accessibility and modal shift across the borough and to Maidstone town centre, in order to		
	promote the town as a regionally important transport hub.		
	2. In doing so, the council and its partners will:		
	i. Ensure the transport system supports the growth projected by Maidstone's Local Plan and facilitates economic prosperity;		
	ii. Deliver modal shift through managing demand on the transport network through enhanced public transport and the continued		
	Park and Ride services and walking and cycling improvements;		
	iii. Improve highway network capacity and function at key locations and junctions across the borough;		
	iv. Manage parking provision in the town centre and the wider borough to ensure it is fair and proportionate and supports demand		
	management;		
	v. Improve transport choice across the borough and seek to influence travel behaviour;		
	vi. Protect and enhance public rights of way;		
	vii. Deliver strategic and public transport links to and from Maidstone, including increased bus service frequency along the radial		
	routes into the town centre and its railway stations, particularly in the morning and evening peak travel times;		
	viii. Work with landowners and public transport operators to secure the provision of a new bus interchange facility that is more		
	accessible, user-friendly and fit for purpose;		
	ix. Work with service providers to improve bus links to the rural service centres and larger villages, including route options and		
	frequency;		
	x. Improve strategic links to Maidstone across the county and to wider destinations such as London;		
	xi. Ensure the transport network provides inclusive access for all users; and xii. Address the air quality impact of transport.		
	1. 3. Within the bus and hackney carriage corridors, as defined on the policies map, the council and the highway authority will		
	develop preference measures to improve journey times and reliability and make public transport more attractive, particularly on		
	park and ride routes and the radial routes into the town centre. Such measures will include:		
	park and ride routes and the radial routes into the town centre. Such measures will mendee.		
	i. Bus priority measures along radial routes including bus prioritisation at junctions;		
	ii. Prioritisation of sustainable transport modes along radial routes and/or		
	iii. Enhanced waiting and access facilities and information systems for passengers, including people with disabilities.

Policy H1(8) West of Church Road, Otham	PC/133; PC/137	Amend Policy H1 (8) as follows: Policy H1 (8) – West of Church Road, Otham West of Church Road, as shown on the policies map, is allocated for development of approximately 440 dwellings at an average density of 35 dwellings per hectare. In addition to the requirements of policy H1, planning permission will be granted if the following criteria are met. Design and layout 1. The tree line along the western boundary of the site will be enhanced, to protect the amenity and privacy of residents living in Chapman Avenue. 2. An undeveloped section of land will be retained along the western boundary of the site, to protect the amenity and privacy of residents living in Chapman Avenue. 3. An undeveloped section of land will be retained along the eastern edge of the site in order to protect the setting of 51 Nicholas <u>Church and maintain clear views of the Church from Church Road</u> . 4. The Church Road frontage will be built at a lower density from the remainder of the site, to maintain and reflect the existing open character of the arable fields on the eastern side of Church Road and to provide an open setting to 51 Nicholas Church. 5. The hedge line along the east boundary of the site with Church Road shall be retained and strengthened where not required for access to the site. 6. Retain non-arable land to the north and east of 51 Nicholas Church, to protect its setting. 7. Retain discrete section of land at the south east corner of the site to provide a 15 metres wide landscape buffer to ancient woodland (bordering site at this location), to be planted as per the recommendations of a landscape survey. Access 8. Access will be taken from Church Road only. Air quality 9. Appropriate air quality mitigation measures to be agreed with the council will be implemented as part of the development. Open space 10. Provision of approximately 2.88h of <u>natural/semi-natural</u> open space <u>consisting of 1.4ha in accordance with policy OS1(18), and 1.4Bm within the site, together with additional on/off-site provis</u>	Main	To ensure that this policy is positively prepared and consistent with achieving sustainable development.

H1(42) Tanyard	Amend policy as follows:	Main	To ensure
Farm, Old Ashford Road, Lenham	Tanyard Farm, as shown on the policies map, is allocated for development of approximately 155 <u>145</u> dwellings at an average density of 30 dwellings per hectare. In addition to the requirements of policy H1, planning permission will be granted if the following criteria are met.		that this policy is positively prepared and consistent with achieving sustainable
	Amend Criterion 3 as follows:		development.
	The development proposals shall be designed to maintain existing vistas and views of the Lenham Cross from Old Ashford Road, through the site along PROW KH433.		
	<u>The development proposals shall be designed so as to create a pronounced vista which would afford clear uninterrupted views of the</u> <u>Lenham Cross from Old Ashford Rd. The axis of this vista shall be PROW KH433 and shall incorporate substantial public open space</u> <u>including an open drainage channel / swale.</u>		
	Amend Policy H1(42) Criterion v as follows:		
	The development proposals are <u>shall be</u> designed to take into account the results of a landscape and visual impact assessment <u>which</u> <u>should be</u> undertaken in accordance with the principles of current guidance that particularly addresses the impact of development on the character and setting of the Kent Downs AONB.		
	Insert additional criterion:		
	Flood risk and drainage		
	9. Development will be subject to the results of a detailed flood risk assessment and a sustainable surface water drainage strategy that demonstrates that surface water run-off from the site will not lead to an increased risk of flooding off-site.		
	Insert additional criterion		
	<u>Open Space</u>		
	<u>10. Provision of 0.34 hectare of natural/semi-natural open space, otherwise known as the landscape vista, either side of PROW</u> <u>KH433, in accordance with Policy OS1 (XX) together with additional on-off-site provision and/or contributions towards off-site</u> <u>provision/improvements as required in accordance with policy DM22.</u>		
	<u>Amend Policy OS1 – Add the above open space allocation to OS1.</u>		
Policy H1(53) Boughton Lane, Boughton	Delete Policy H1(53) Boughton Lane, Boughton Monchelsea and Loose	Main	
Monchelsea and Loose	Boughton Lane, as shown on the policies map, is allocated for development of approximately 75 dwellings at an average density of 28 dwellings per-hectare. In addition to the requirements of policy H1, planning permission will be granted if the following criteria are met.		Allocation to be deleted to reflect
	<del>Design and Layout</del>		Inspector's Interim Findings
	1.—Development will be restricted to the 2.7ha located to the south of Leonard Gould Way and to the rear of 'Slade House', <u>'Milldean', 'Grove Cottage', 'Cherry Lodge' and 'Pendale', Pickering Street.</u>		

			T	
		2.— The remaining 7.1ha of land to the east and north east of the development site will be provided as public open space (in accordance with criterion 13) or will remain undeveloped.		
		3The retention and reinforcement where necessary of existing boundary hedgerows and tree belts.		
		4The character of the development and its resultant density will reflect its role as a transition site on the edge of the urban area.		
		5.–Development proposals will be of a high standard of design and sustainability incorporating the use of vernacular materials. Access		
		6. Access will be taken from Boughton Lane from the northern site boundary running southwards, to ensure the open space area is not unacceptably severed.		
		7.—The provision of pedestrian and cycle access to PROW KM55 on the southern boundary of the site.		
		Heritage Impact		
		8. The development proposals are designed to take into account a detailed Heritage and Archaeological Impact Assessment that addresses the impact of the development on the setting of the adjacent Slade House.		
		Landscape/Ecology		
		9. The development proposals are designed to take into account the results of a landscape and visual impact assessment undertaken in accordance with the principles of current guidance.		
		10. The development proposals are designed to take into account the results of a detailed arboricultural survey, tree constraints plan and tree retention/protection plans.		
		11. The development proposals are designed to take into account the result of a phase 1 habitat survey and any species specific surveys that may as a result be recommended, together with any necessary mitigation/enhancement measures.		
		Flood risk and drainage		
		12. Development will be subject to the results of a detailed flood risk assessment and a sustainable surface water drainage strategy that demonstrates that surface water run-off from the site will not lead to an increased risk of flooding along the River Loose at The Quarries and downstream from The Quarries.		
		<del>Open space</del>		
		13. Provision of 1.49ha of natural/semi-natural open space in accordance with policy OS1(15) together with additional on/off-site provision/improvements as required in accordance with policy DM22. Open space should be sited to maximise accessibility to new and existing residents.		
		Strategic highways and transportation		
		14. Highway improvements at Boughton Lane and at the junction of Boughton Lane and the A229 Loose Road.		
		Amend Local Plan Policies Map to reflect the deletion of the allocation	<u>.</u> .	
Policy H1(54) Boughton	PC/36; PC/137	Amend Policy H1(54) 'Strategic highways and transportation' criterion to include additional criterion to read, " <i>Improvements to</i> capacity at the A229/A274 Wheatsheaf junction."	Main	Change to policy to

Mount, Boughton Lane, Boughton Monchelsea		Insert additional criterion " <u>Utility Infrastructure – A connection is provided to the local sewerage system at the nearest point of</u> adequate capacity, in collaboration with the service provider."		reflect updated assessment of infrastructure requirements, and to ensure the Local Plan is positively prepared and effective.

H1 (60) Forstal Lane, Coxheath	PC/138	Amend policy H1 (60) as follows: H1 (60) Forstal Lane, as shown on the policies map, is allocated for development of approximately 195 dwellings at an average density of <del>25</del> <u>30</u> dwellings per hectare.	Minor	Drafting error.
Policy OS1 Strategic open space allocations	PC/134	Addition of new open space allocation:       OS1 (18)       West of Church Road, Otham       1.40ha       Natural/semi-natural open space         Delete the following open space allocations: <ul> <li>OS1(14)</li> <li>Former Syngenta Works, Hampstead Lane, Yalding</li> <li>OS1(15)</li> <li>Boughton Lane, Loose and Boughton Monchelsea</li> <li>1.49ha</li> <li>Natural/semi-natural open space</li> <li>Natural/semi-natural open space</li> <li>OS1(15)</li> <li>Boughton Monchelsea</li> <li>1.49ha</li> <li>Natural/semi-natural open space</li> <li>Natural/semi-natural open space</li> </ul>	Main	Change to policy to ensure the Local Plan is positively prepared in respect of infrastructure requirements. As a consequence of deleting housing allocations MX1(4) and H1(53)
Policy H2 Broad Locations	PC/78	Amend Table 9.1 Broad locations for housing growth to read:         Policy Reference       Area       Approximate Dwellings yield         H2(1)       Maidstone town centre <u>940</u> 700         H2(2)       Invicta Park Barracks       500 <u>1,300</u> H2(3)       Lenham <u>1,000</u> <u>1,500</u> Amend Policy H2 to read:       The broad locations for future housing growth allocated under policies H2(1) to H2(3) have the potential to deliver up to <u>2,440</u> <u>3,500</u> homes to meet the borough's housing need <del>post 2026</del> . These locations will deliver a range of developments of varying sizes, types and densities. In addition to the specific requirements set out in the detailed policies for the broad locations, all sites should meet the following criteria.		To ensure that the Local Plan is justified, is positively prepared and effective.

Policy H2(1) Maidstone Town Centre	PC/78	Amend Policy H2(1) to read: Policy H2(1) Maidstone town centre broad location for housing growth	Main	To ensure that the Local Plan is justified, is
		<ul> <li>Maidstone town centre broad location for notasing growth</li> <li>Maidstone town centre, as defined on the policies map, is identified as a broad location in accordance with policy H2 for approximately <u>940</u> <del>700</del> dwellings.</li> <li><i>In addition to the development, redevelopment and conversion of appropriate sites, new dwellings within the town centre broad</i> <u>location will be delivered at:</u> <ol> <li><i>The Mall, King Street, as shown on the policies map, for 400 dwellings;</i></li> <li><i>The Riverside, St Peter Street, as shown on the policies map, for 190 dwellings; and</i></li> </ol> </li> </ul>		positively prepared and effective.
		<ul> <li><i>iii.</i> <u>Through the conversion of poor quality office stock for approximately 350 dwellings.</u></li> <li>2. Development <u>proposals</u> must comply with policy SP4.</li> <li>The council will prepare a master plan to develop the vision for the town centre and to guide development proposals. <u>Delivery of the town centre broad location will be achieved through a masterplanning approach, working with partners to guide development and to guide development and to guide development and the proposal state.</u></li> </ul>		
		<ul> <li>to maximise opportunities for regeneration.</li> <li>Amend Para 9.2 to read:</li> <li>9.2 It is acknowledged that there is an oversupply of poorer quality office stock in the town centre which is no longer fit for purpose. This has the effect of suppressing the town centre office market and thereby inhibiting new development which could better meet modern business needs. A route to tackle this is to rationalise the supply of the poorest stock through conversion or redevelopment to alternative uses. Over the time frame of the plan it is anticipated that the value of the lowest quality office stock, in terms of rents, will fall further making redevelopment for alternative uses increasingly viable. With a corresponding uplift in the market for town centre apartments, this trend could see the delivery of significant new housing in and around the town centre. The impact of the temporary permitted development entitlements for changes of use from office accommodation to residential use <u>have had a</u> significant effect on the potential supply of residential units in the town centre. At 1 April 2016, a total of 665 dwellings had been consented through prior notification within the town centre during the first three years of its operation - with 85% achieved through the conversion of poor quality office stock. There is substantial further poor quality office floorspace in the town centre from which to realise further residential opportunities, yielding approximately 350 dwellings during the plan period. The Town Centre Study and</li> </ul>		
Policy H2(2)	PC/38;	<ul> <li><u>recent interest from landowners also signal further potential opportunities within the town centre including at The Mall (400 dwellings) and the riverside west of the River Medway (190 dwellings) through prior notification yet to be fully assessed, although a number of prior notifications have been submitted. In view of the market shifts needed, full delivery is unlikely to be realised until the end of the plan period</u>. The town centre broad location has the potential to deliver in the order of <u>940</u> 700 additional homes.</li> <li>Amend Para 9.4 to read: "The MoD keeps it property portfolio under regular review. <u>As part of the MoD review (November 2016)</u></li> </ul>	Main	Change to
Invicta Park Barracks	PC/71	<u>Invicta Park Barracks will be released by 2027.</u> The MoD has confirmed to the council that, in the longer term, there could be some prospect that the site may be declared surplus and so become available for alternative uses. In recognition of this potential and the clear need to plan positively for it, in the event that the site does become surplus the MoD requirements (again it is advised there are no immediate plans to vacate the site), the local plan identifies Invicta Park Barracks as a broad location which is unlikely to come forward for housing growth until the end of the local plan period (post 2026). The site has the potential to deliver in the order of 1,300 new homes, of which a minimum 500 dwellings will be delivered in the period post 2026 to 2031. The council is working with the MoD to encourage an earlier delivery of the site.		policy to ensure the Local Plan is positively prepared in respect of infrastructure requirements Changes to

		Amend criterion 3 of Policy H2(2) to read "Ensuring requisite community facilities, which may include neighbourhood shopping and health and education facilities, in addition to a new primary school, are delivered where proven necessary and in conjunction with housing; " Insert Additional criterion to read: "Minerals Safeguarding – This site falls within the Minerals Safeguarding Areas as shown on the policies map and therefore development proposals will be required to undertake a minerals assessment to assess the viability and practicability of prior extraction of the minerals resource. The minerals assessment will comply with Policy DM7 of the Kent Minerals and Waste Local Plan (2013-2030) and any supplementary planning guidance produced by the Minerals Planning Authority in respect of minerals safeguarding."		policy to reflect consistency with national/coun ty policy and to improve the effectiveness of these policies.
Policy H2(3), Lenham and supporting text	PC/39; PC/85	Amend Para 9.6 as follows: 9.6 Land adjacent to the east and west of Lenham's built form is considered suitable to accommodate additional housing in the region of <u>1.000</u> <u>1500</u> dwellings in total <u>post 2021</u> <del>if required towards the latter end of the plan period (post 2026)</del> . The topography of this area is low lying and does not have the same landscape or infrastructure constraints as some other areas of the borough. However, it is accepted that a number of infrastructure inprovements and mitigation measures (e.g. transport, highways, education, health, sporting facilities, <u>waste water treatment works improvements</u> ) would be required to ensure that any future development is integrated into the existing fabric of the settlement and to ensure that Lenham remains a sustainable settlement. <u>Masterplanning of</u> the area will be essential and housing site allocations and associated infrastructure requirements will be made through the Lenham Neighbourhood Plan and/or the Local Plan Review to be adopted by April 2021. Amend Policy H2(3) Lenham broad location for housing growth The rural service centre of Lenham is identified as a broad location in accordance with policies SP8 and H2 for up-to approximately <u>1.000</u> , <u>1.500</u> dwellings <u>post 2021</u> , towards the end of the local plan period (post 2026). <u>Master planning of the area will be essential</u> to achieve a high quality design and layout, landscape and ecological mitigation, and appropriate provision of supporting physical, social and areen infrastructure. Housing site allocations and associated infrastructure requirements will be made through the Lenham Neighbourhood Plan and/or the Local Plan Review. It is important that development of Lenham takes place in a manner that is well integrated with the existing communities of Lenham, so that they are seen as, and functional as, the village which they adjoin, rather, than stand-alone communities. In order to ensure coordinated and planned approach, proposals for development within Lenham which come for	Main	Change in approach for Lenham Rural Service Centre as a Broad Location (Policy SP8 and H2(3)), which is required to demonstrate the Local Plan has been positively prepared, is justified and effective.

2. <u>Outline measures to mitigate the traffic impacts from development on the strategic and local road networks;</u>
3. Individual transport assessment for each development, to be submitted to and approved by the Borough Council in co with Kent County Council, as the highway authority, demonstrating how proposed mitigation measures address cumulat of all the sites taken together;
3. Identify appropriate provision of, or contributions towards infrastructure improvements;
4. Provision of, or contributions towards infrastructure improvements that benefit public transport users, pedestrians an and around the village;
4. Incorporate primary school(s) and secondary school(s) if the scale of development justifies on-site, or if not, cont provision off-site in order to meet the needs generated by the broad location;
provision of, or contributions towards, other community infrastructure (e.g. medical facilities, youth facilities) where pro necessary,
5. <u>Ensure development is fully integrated with the surrounding village through shared community uses, and a variet</u> <u>modes including walking, cycling and public transport;</u>
6. Provision of publicly accessible open space, including natural and semi-natural open space, as proven necessary, and contributions;
6. <u>Provide, commensurate with the scale of development, a network of open spaces and green infrastructure for am</u> <u>sport and recreation, including allotments, local nature reserves woodlands, green spaces and wildlife corridors. S</u> <u>should respond positively to the wider area to ensure enhanced linkages and networks;</u>
7. Appropriate surface water and robust flood mitigation measures will be implemented where deemed necessary, subjer risk assessment, incorporating sustainable urban drainage systems;
7. <u>Incorporate appropriate landscape treatment which ensures that developments can be satisfactorily assimilated in</u> <u>surrounding area;</u>
8. A feasible solution shall be identified to provide wastewater treatment capacity so that water quality objectives set by Environment Agency are not compromised, and the necessary wastewater treatment capacity can be delivered in paralle development; and
8. <u>Protect and, where possible, enhance any features of biodiversity value on site or which are off-site but might be</u> the proposed development:

Policy H2(3), Lenham and supporting text	PC/87; PC/88	Amend the Lenham Rural Service Centre inset plan (page 50) to make clear that the settlement boundary will be reviewed following the allocation of <u>1,000</u> <del>1,500</del> dwellings and associated infrastructure. Delete Lenham broad location inset plan (page 169).	Minor	To reflect the change in approach for Lenham Rural Service Centre as a Broad Location (Policy SP8 and H2(3)), which is required to demonstrate the Local Plan has been positively prepared, is justified and effective.
Policy RMX1(1) Newnham Park, Bearsted	PC/106; PC/107; Action 9.2; 9.3 PC/40; PC/41; PC/43; PC/43; PC/44; PC/45; PC/102; PC/103; PC/104; PC/105; PC/106; PC/107; Action 9	Amend Policy RMX1 and supporting text 13.6 Building heights will be restricted across the whole site to two storeys. Exceptionally there are two locations within the site where modestly higher buildings may be achievable. The first of these lies towards the north of the site, immediately west of the stream and south of the KIMS phase 1 development where the site topography would enable a building of up to 4 storeys to be achieved. The second location is at the entrance to the site where buildings of up to three storeys would be acceptable. <i>Whilst the extant consent for the site (MA/13/1163) is less specific about the locations for 3/4 storey buildings, future proposals will be considered against the criteria in the policy. In all cases buildings should be designed and sited to respond to the site's undulating topography and should avoid any significant site levelling in the creation of development platforms for example by the use of terracing. <i>Development will be entirely excluded from the 'grassy knoll' area shown on the policies map.</i> 13.7 The medical campus will deliver up to 100,000m2 of specialist medical facilities and associated uses, of which 25,000m2 will provide for related offices and research and development. Appropriate uses on the site will include hospital or healthcare facilities, specialist rehabilitation services, medical related research and development, central laboratory facilities, and medical training. Medical facilities to the west of the existing stream will be delivered in advance of those being provided on land to the east of the stream. 13.8 The regeneration and revitalisation of Maidstone's town centre is a priority and the town centre will continue to be the primary retail and office location in the borough. Development will <del>predominantly</del> comprise replacement premises for the existing garden centre and for the shops already established <del>on site</del> (equating to some 14,300m2) <del>and a limited amount of additional floorspace</del> at Newnham Court Shopping Village (<del>up to</del></i>	Main	To ensure that the policy is sound; positively prepared, justified, effective and consistent with national policy.

consistent with its sensitive location. The town centre functions successfully due to the mix of uses in close proximity to each other. Consequently, new additional non-retail floorspace (i.e. that which does not fall within use class A1) at Newnham Park, such as cafés, restaurants and public houses, together with banks and estate agents, are unlikely to be acceptable. Similarly, leisure uses
such as cinemas and bowling alleys, and other uses that are likely to conflict with <u>that would undermine the vitality and viability of</u> the town centre, <u>are unlikely to be acceptable</u> . will not be permitted. <u>Proposals for any additional retail floorspace above 14,300sqm</u>
and leisure uses will require sequential and impact assessments at the planning application stage. Restrictions on the type of goods sold and the class A and D2 uses operating may be required to further ensure that impacts on the town and other centres can be controlled. The types of goods which may need to be controlled include clothing, footwear, accessories, jewellery and watches.
Subject to restrictions on the type of goods sold, retail premises that have a unique and recognised "out of town" format, such as 'homeware' offers, could be acceptable on the allocated site provided conflict with town centre uses would be unlikely. The height and bulk of the retail units will need to be controlled in this sensitive landscape location and for this reason conventional retail warehouse style buildings will not be acceptable. In order to assess the impact of proposals on the town centre, a retail impact assessment will be required.
Amend Policy RMX1(1) as follows:
Policy RMX1(1)
Newnham Park, as shown on the policies map, is allocated for a medical campus of up to 100,000m2, a replacement retail centre of up to 15,000m2 <u>14,300sqm</u> and a nature reserve. A development brief, to be approved by the council, will detail the way in which medical facilities, retail redevelopment and the nature reserve, together with integral landscaping and supporting infrastructure, are delivered in an integrated and coordinated manner.
Planning permission will be granted if the following criteria are met.
Design and layout
1. Phased provision of a maximum of 100,000m2 of specialist medical facilities set within an enhanced landscape structure of which 25,000m2 will provide for associated offices and research and development.
2. Provision of a replacement garden centre and replacement retail premises of up to 14,300m2 gross retail floorspace and additional provision of retail floorspace not exceeding 700m2 gross retail floorspace which is not to be used for the sale of clothing, footwear, accessories, jewellery and watches. All replacement and additional <u>The</u> retail floorspace shall be confined to the vicinity of the existing footprint of the current retail area as shown on the policies map. New additional non-A1 floorspace will not be appropriate. The retail development should include the provision of a bus interchange and a car park management plan.
3. Creation of a <del>parkland</del> <u>woodland</u> nature reserve of approximately 3 hectares on land to the south east of the site, as shown on the policies map, and through a legal agreement transferred to a Trust secured through a legal agreement.
4. Construction of buildings of high quality design in a sustainable form that reflect the site's prime location as a gateway to Maidstone.
<ul> <li>5. Mitigation of the impact of development on the Kent Downs Area of Outstanding Natural Beauty and its setting through:</li> <li>i. The provision of new structural and internal landscaping to be phased in advance of development <u>to accord with an approved</u></li> <li><u>Landscape and Ecological management plan for the site;</u></li> <li>ii. The retention and enhancement of existing planting. Where the loss of selected existing planting is upavoidable, appropriate</li> </ul>
ii. The retention and enhancement of existing planting. Where the loss of selected existing planting is unavoidable, appropriate compensatory planting must be provided;
<ul> <li>iii. The use of the topography in site layout plans to exclude development on the higher, more visually prominent parts of the site;</li> <li><u>The absence of built development within the area shown on the policies map;</u></li> <li>iv. The restriction of building heights across the whole site to a maximum of two storeys. Exceptionally a building of up to 4 storeys</li> </ul>
could be accommodated on the land adjacent to the existing KIMS (phase 1) development to the immediate west of the stream and

buildings of up to 3 storeys could be accommodated at the <u>New Cut roundabout</u> entrance to the site;
v. The use of low level lighting; and
vi. The use of green roofs where practical and avoidance of the use of light coloured or reflective materials
-6. Medical facilities on land to the west of the existing stream will be delivered in advance of medical facilities on land to the east of the existing stream will be delivered in advance of medical facilities on land to the east of the existing stream will be delivered in advance of medical facilities on land to the east of the existing stream will be delivered in advance of medical facilities on land to the east of the existing stream will be delivered in advance of medical facilities on land to the east of the existing stream will be delivered in advance of medical facilities on land to the east of the existing stream will be delivered in advance of medical facilities on land to the east of the exist of the
7. The additional retail floorspace must be of an out of town format that is complementary to town centre uses and, by means of a sequential sites assessment, demonstrably require an out of town location. Large scale retail warehousing style buildings will not be acceptable in this sensitive landscape location.
8. Submission of a retail impact assessment which clearly demonstrates that the retail development has no significant adverse impact on town and local centres.
x. [criteria 7 & 8 combined] <u>For proposals which include retail floorspace additional to the existing 14,300sqm , submission of a</u> <u>sequential sites assessment and a retail impact assessment which demonstrate that the National Planning Policy Framework's</u> <u>sequential and impact tests are met. The retail impact assessment will clearly demonstrate no significant adverse impact on town,</u> <u>district and local centres including those in adjoining boroughs. Large scale retail warehousing style buildings will not be acceptable</u> <u>in this sensitive landscape location.</u>
9. Provision of a landscape buffer of between 15m and 30m in width along the northern and eastern boundaries of the site in order to protect Ancient Woodland, with tracts of planting extending into the body of the development.
10. Provision of a landscaped buffer of a minimum 15m in width on both sides of the existing stream running north-south through the site (minimum 30m width in total), in order to enhance the amenity and biodiversity of this water body.
11. Submission of a <del>full</del> Landscape <u>and Visual Impact</u> Assessment to be approved by the council <u>which includes assessment of the</u> impact of the development on views to and from the Kent Downs AONB
Access 12. Vehicular access to the site from the New Cut roundabout, with bus and emergency access from the A249 Sittingbourne Road <u>if</u> required.
13. Enhanced pedestrian and cycle links to the residential areas of Grove Green, Vinters Park and Penenden Heath, and to Eclipse Business Park.
14. Submission of a Travel Plan, to include a car park travel plan, to be approved by the Borough Council.
Archaeology 15. Provision of a watching archaeological brief in order to protect any heritage assets found on-site.
Ecology 16. Submission of an ecology survey and detailed mitigation measures.
Highways and transportation 17. Submission of a full Transport Assessment to identify <u>those</u> off-site highway improvements <u>and sustainable transport measures</u> <u>necessary</u> to serve the development, to be secured in a phased manner by the provision of infrastructure or through contributions by means of a signed legal agreement <u>which is to be completed</u> prior to the commencement of development. <u>Development will</u> <u>contribute, as proven necessary through the Transport Assessment, to the following improvements;</u>
i. Capacity improvements and signalisation of Bearsted roundabout and capacity improvements at New Cut roundabout. Provision of a combined foot/cycle way between these two roundabouts.

		ii. Tueffie eigenliestien of the MOO 17 noundebout, widening of the erect bound off alls and evention of a new simulation to the		
		ii. Traffic signalisation of the M20 J7 roundabout, widening of the coast bound off-slip and creation of a new signal controlled pedestrian route through the junction.		
		Capacity improvements at M2 J5 (located in Swale Borough).		
		iii. Upgrading of Bearsted Road to a dual carriageway between Bearsted roundabout and New Cut roundabout.		
		iv. Increased frequency of 333 / 334 route to provide a bus service with 15 minute intervals between the site and the town centre, potentially to include the provision of bus priority measures on New Cut Road to include traffic signals at the junction with the A20 Ashford Road.		
		v. Improved bus links to the site from the residential areas of Grove Green and Penenden Heath.		
		Insert Additional criterion to read: "Minerals Safeguarding – This site falls within the Minerals Safeguarding Areas as shown on the		
		policies map and therefore development proposals will be required to undertake a minerals assessment to assess the viability and practicability of prior extraction of the minerals resource. The minerals assessment will comply with Policy DM7 of the Kent Minerals and Waste Local Plan (2013-2030) and any supplementary planning guidance produced by the Minerals Planning Authority in respect of minerals safeguarding."		
Policy	Action	Amend paragraph 13.12 as follows;	Main	To ensure
RMX1(2)Maidsto ne East and Royal Mail Sorting Office and paragraph 13.12	0.9	13.12 <u>Office uses will be an important component of the mix of uses on the site.</u> The site is in a highly sustainable location adjacent to <u>Maidstone East station which will benefit from improved services to London</u> in 2018 and with good access to Junction 6 of M20. Housing is <u>also</u> seen as an important supporting use on this site. Residential development could be delivered in separate blocks either to the west of the site or possibly south of the railway line fronting Brenchley Gardens, or on upper floors above the retail development.		consistency with national policy and to ensure the plan is positively
		Amend Policy RMX1(2) as follows;		prepared to meet identified
		Maidstone East and former Royal Mail Sorting Office, as shown on the policies map, is allocated for development for up to 10,000m2 comparison and convenience retail, <u>3,500sqm of offices (B1a)</u> and approximately 210 dwellings. In addition to the requirements of policy H1, planning permission will be granted if the following criteria are met.		needs.
		1 The provision of up to 10,000sqm of comparison and convenience shopping floorspace <u>, 3,500sqm of offices (B1a)</u> and some 210 dwellings. <u>The submission of a retail impact assessment is required which demonstrates that the National Planning Policy</u> <u>Framework's impact test is met.</u>		
Policy RMX1(3)	Action 9.10	Amend paragraph 13.16 as follows;	Main	To ensure
King Street and paragraph 13.16	9.10	13.16 The King Street multi storey car park site has recently been cleared and is being used as a surface level car park for the short term. Together with the adjacent AMF Bowling site which has recently been demolished, this area offers a significant redevelopment opportunity close to the heart of the town centre to deliver a mix of ground floor retail and residential uses. This area could be brought forward in conjunction with the wider redevelopment of The Mall proposed for the longer term. This would enable a comprehensive approach to development on both sides of King Street at this gateway location to the town centre.		consistency with national policy and to ensure the plan is positively prepared to
		Amend criterion 1 of Policy RMX1(3) as follows;		meet identified
		1 The provision of up to 1,400sqm of comparison and/or convenience shopping floorspace at ground floor level and up to 53 dwellings. <u>The submission of a retail impact assessment is required which demonstrates that the National Planning Policy</u> <u>Framework's impact test is met.</u>		needs.
Policy RMX1(4)	Action	Amend paragraph 13.17, include a new sub-section after paragraph 13.17 and amend Policy RMX1(4) to read as follows;	Main	To ensure

Syngenta	10.1	Former Syngenta Works, Hampstead Lane, Yalding	that the policy is
		13.17 The Former Syngenta Works site near Yalding <i>is a large, flat brownfield site (19.5 ha) about one kilometre to the west of</i> Yalding village and adjacent to Yalding Railway Station. The site was previously used for agro-chemicals production and is now vacant was decommissioned in 2002/2003. The site has been cleared of buildings, apart from an office building at the site entrance, and the land has been remediated to address the contamination resulting from its previous use. Securing a significant proportion of employment uses on this site alongside housing will have important sustainability benefits. Comprehensive measures to address flood risk will be required in association with development. Immediately to the east of the site is a canalised section of the River Medway. The whole site lies within Flood Zone 3a.	justified through proportionate evidence and consistent with national policy.
		<u>13.xx</u> The aim of the Sequential Test method set out in the NPPF is to steer new development to areas with the lowest probability of flooding. If, following application of the Sequential Test, it is not possible for the development to be located in areas with a lower probability of flooding, the Exception Test can be applied. Crucial to any redevelopment of this brownfield site is the identification of a comprehensive scheme of flood mitigation which addresses the identified flood risk. Subject to such a scheme being achievable, the site is potentially suitable for , employment, leisure, commuter car parking and open space uses.	
		Policy RMX1(4) Former Syngenta Works, as shown on the policies map, is allocated for development of approximately 8,600m <sup>2</sup> of employment floorspace and approximately 200 dwellings. In addition to the requirements of policy H1, planning permission will be granted if the following criteria are met.	
		<u>The Council will support the re-development of the brownfield Former Syngenta Works Site, as shown on the policies map, provided</u> <u>that a comprehensive scheme of flood mitigation which addresses the identified flood risk will be delivered in association with the</u> <u>development.</u> <u>A comprehensive Flood Risk Assessment which has been undertaken to a methodology agreed by the Environment</u> <u>Agency will be required. The FRA must identify measures to address safe site egress and access and measures to address the flood</u> <u>risk. Contributions may be required for measures to reduce flood risk to dwellings in Yalding.</u>	
		Subject to the findings of the FRA, potential suitable uses for the site could include , employment (B classes), leisure, commuter car parking and open space. Parking permission will be granted if the following criteria are met;	
		<ul> <li>Design and Layout <ol> <li>Provision of at least 8,600m<sup>2</sup> of employment floorspace located in the western part of the site closest to the railway line and the retention or re-provision of the office building fronting Hampstead Lane.</li> <li>I. The height of new employment buildings should not exceed that of the existing office building.</li> <li>Subject to the flood risk assessment, residential development of some 200 dwellings to be located on the eastern portion of the site.</li> <li>Within the site boundary, an area of land to the south (13ha) is to be retained as a nature conservation area.</li> <li>2. 2. 1. Within the site boundary to the developed parts of the site, to act as a buffer to the Local Wildlife site and to screen views from the attractive countryside to the south and from properties in Parsonage Farm Road.</li> <li>3. 3. The retention, maintenance and enhancement of the landscape belts along the western boundary of the site, on both sites of the railway line, and along the eastern boundary adjacent to the canalised section of the river, to screen and soften the</li> </ol></li></ul>	
		appearance of the development. Access <del>7.</del> <u>4. Access will be taken from Hampstead Lane only</u> <del>8.</del> <u>Development should secure public rights of way improvements, including providing an alternative to the 'at grade' pedestrian</u> <u>footpath crossing the railway.</u>

		Ecology 9. <u>5.</u> The site lies adjacent to the Hale Ponds and Pastures Local Wildlife site. A survey which assesses the site's ecological potential must be submitted. The <u>D</u> evelopment proposals must provide for the delivery of appropriate habitat creation and		

bringing it into active use. Planning permission has been granted for a large foodstore and other ancillary uses (offices, restaurant and café and assembly and leisure uses) on the site comprising the Baltic Wharf building, the warehouses to the south, Raglan House and the car park to the north of the railway bridge (MA/13/0297). Should the consented scheme not come forward, the council will consider positively alternative proposals using the criteria in Policy RMX1(5). The site is considered suitable for a variety of uses namely housing, offices, leisure uses, cafes and restaurants and, subject to impact and sequential tests being met, additional retail use.	consistency with nation policy.
and the car park to the north of the railway bridge (MA/13/0297). Should the consented scheme not come forward, the council will consider positively alternative proposals using the criteria in Policy RMX1(5). The site is considered suitable for a variety of uses namely housing, offices, leisure uses, cafes and restaurants and, subject to impact and sequential tests being met, additional retail	
namely housing, offices, leisure uses, cafes and restaurants and, subject to impact and sequential tests being met, additional retail	. ,
<u>use.</u>	
Policy RMX1(5)	
The Baltic Wharf site, as shown on the policies map, is suitable for a mix of uses comprising housing, offices (B1a and/or A2), leisure	
uses (D2), cafes and restaurants (A3) and retail (A1). Planning permission will be granted if the following criteria are met.	
Design and layout	
1. The proposal conserves and, where possible, enhances the heritage significance of the listed Powerhub building and its setting and	
secures the building's restoration.	
2. The proposal achieves the comprehensive development of the whole site and avoids piecemeal development which would	
undermine the achievement of the restoration of the listed building	
3. The proposal is designed to enhance the site's contribution to the townscape as seen from public vantage points, in particular from	
the banks of the River Medway.	
<u>Uses</u>	
4. For retail (A1) floorspace additional to the 2,596sqm which is lawful, submission of a sequential sites assessment and a retail	
impact assessment which demonstrate that the National Planning Policy Framework's sequential and impact tests are met	
Access	
5. The provision of a level riverside footpath for use by the public extending from the site's southern boundary with Scotney Gardens	
to connect at its boundary with Waterside Gate to the north	
6. Submission of an employees' Travel Plan to be implemented in conjunction with the development.	
<u>Flooding</u>	
7. Submission of a Flood Risk Assessment for the development undertaken to a methodology agreed with the Environment Agency	
and the delivery of resultant flood mitigation measures.	
8. Submission of a surface water drainage strategy for the development based on sustainable drainage principles.	
Noise	
9. Submission of a noise assessment and the delivery of resultant noise attenuation measures	
<u>5. Submission of a noise assessment and the derivery of resultant hoise attendation measures</u>	
Air quality	
10. The submission of an air quality assessment and emission reductions plan and the delivery of resultant mitigation measures .	
Land contamination	
11. The submission of a land contamination assessment and the delivery of resultant mitigation measures	
Highways and transportation	
<u>12. Development will contribute, as proven necessary through a Transport Assessment, to requisite improvements to the highway</u> network, to include the following;	
i. Improvements at the junction of Buckland Hill with London Road	
ii. Improvements to the capacity of the eastbound carriageway of the Bridges Gyratory in the event that the current improvement	
scheme does not provide sufficient capacity to meet the needs of the development	
scheme does not provide sufficient capacity to meet the needs of the development	1
13. For proposals which include additional retail floorspace, measures to secure improved pedestrian, cycle and public transport links	
13. For proposals which include additional retail floorspace, measures to secure improved pedestrian, cycle and public transport links	To ensure

RMX1(6) Mote	PC/94		+	he policy is
Road Maidstone	and	13.a This site comprises a 0.4ha site which lies within a wider parcel of land bounded by Romney Place, Lower Stone Street and		effective and
	PC/92;	Mote Road/Wat Tyler Way. The site is currently used for surface level car parking for nearby business uses and redevelopment	с	leliverable
	PC/93;	represents an opportunity to make better use of this site. As it is located within the town centre, it is potentially suitable for a mix of		vhilst seeking
	Action 8.2	uses including offices, residential and leisure uses.		o meet dentified
		<u>13.b</u> The site has the potential to contribute to the identified need for additional office floorspace (24,000sqm by 2031). This is only likely to be achieved if the scheme includes other, higher value uses, most specifically residential. The site is therefore allocated for residential-led mixed use development which will include a significant component of office floorspace.	r	needs
		<u>13.c Development of the site will need to bring townscape improvements to this part of the town centre, including by establishing an</u> improved frontage to Wat Tyler Way. The scale, siting and design of the development will have particular regard to the setting of the Grade II listed Romney Terrace to the north of the site.		
		<u>13.d The policy does not prescribe amounts of floorspace of different uses as the overall development capacity of the site will be</u> <u>highly dependent on the specific scheme which comes forward. The evidence supporting the Local Plan highlights that the expected</u> <u>demand for office floorspace will predominantly be from small businesses who will seek to occupy small office units, often within</u>		
		<i>multi-tenant managed 'workspaces'. This type of provision operates on a different financial model than a traditional single occupier office, generating different financial returns and, potentially, having different build costs. The viability assessment accompanying an</i>		
		application should test the impacts of different forms of development and management of the office space on the development		
		viability to demonstrate how the provision of office floorspace has been maximised. In respect of residential capacity, Policy DM12		
		sets out the density range acceptable on a town centre site.		
		Policy <del>EMP1 (1) <u>RMX1(6)</u> Mote Road, Maidstone</del>		
		Mote Road, as shown on the policies map, is allocated for <u>residential-led mixed use development to include 2,000sqm of office</u> <u>floorspace (B1a).</u> redevelopment of up to 8,000 sqm office floorspace (B1 use class). <u>Leisure uses (D2) would also be appropriate as</u> part of the mix of uses on this site. Planning permission will be granted if the following criteria are met.		
		part of the mix of uses of this site. Flamming permission will be granted if the following chiena are met.		
		Design and layout 1. Where possible development should be sited to create frontage blocks to Mote Road/Wat Tyler Way and to Romney Place. 2. The development preserves the setting of the listed properties in Romney Place. 3. Development does not exceed 9 storeys in height.		
		<u>Uses</u> <u>x. The development should deliver some 2,000sqm of office floorspace. Any scheme which includes a lesser amount of office</u> <u>floorspace should be accompanied by a viability assessment that considers alternative delivery and management approaches and</u> <u>their impact on viability. It should clearly set out the sales and build costs assumptions used and demonstrate that the amount of</u> <u>office floorspace is the maximum which could be provided as part of a viable development.</u>		
		Noise 4. The submission of a noise assessment and the delivery of appropriate noise attenuation measures as part of the development.		
		Air quality		

		5. The submission of an air quality assessment and appropriate air quality mitigation measures to be agreed with the council will be implemented as part of the development.		
		Land contamination 6. The submission of a land contamination report and appropriate mitigation measures to be implemented prior to development commencing.		
Policy EMP1( <u>54</u> ) Woodcut Farm, Ashford Road, Bearsted Supporting text	Action 8.5	Amend supporting text to Policy EMP1(5g) as follows: 15.2 There is a unique opportunity in the borough to provide a prestigious business park at Junction 8 of the M20 that is well connected to the motorway network and that can provide for a range of job needs up to 2031. <i>Land at Woodcut Farm will provide for</i> 126.000sqm of additional warehousing floorspace needed ( <i>BB</i> ; 2014-01) and will also make a significant contribution to the need for 24.000sqm of additional varehousing floorspace needed ( <i>BB</i> ; 2014-01) and will also make a significant contribution to the need for 24.000sqm of additional varehousing floorspace needed ( <i>BB</i> ; 2014-01) and will also make a significant contribution to the need for 24.000sqm of additional varehousing floorspace needed ( <i>BB</i> ; 2014-01) and will also make a significant contribution to the need for 24.000sqm of additional varehousing of the system will connected the floor additional varehousing definition business orientated space. Stand-alone industrial and manufacturing space built for specific end users and smaller scale distribution businesses as well as office type uses. This side will over ome this gualitative gain in the borough the delty accommedate future demand. Land at Woodcut Farm is allocated to provide for a mix of business uses comprising industrial, offices and distribution/logistics. High quality office development is sought, such as that required by company headquarters for example, providing complementary provision to the town centre. 15.9 The flatter area of the site, to the east of the stream, is better able to accommodate larger footprint buildings of up to <u>2500sqm</u> and up to 8m in height. The siting, scale and detailed design of development within this area must also have particular regard to the setting of Woodcut Farmhouse (Grade II listed). On the highest part of the site, as shown on the policies map, to the east of the Woodcut Farm complex, building footprints will be limited to <u>500sqm</u> . Policy EMP1(5g) Woodcut Farm, Ashford Road, Bears	Main	To ensure the policy is positively prepared, effective and deliverable whilst seeking to meet identified needs.
		3. Landscape buffers of at least 15m in width are established along the site's boundaries, to M20 and to Musket Lane, which will also		

to help secure the setting to Woodcut Farmhouse (Grade II listed) and the amenity of residential properties at Chestnuts and White Heath. Development will have a landscaped frontage to A20.	
<u>3. Landscape buffers of at least 35m in depth are established along the site's boundary to the M20 including a new native woodland</u> shaw, at least 15m to Musket Lane, at least 25m to the A20 including a planted bund, and at least 30m along the western boundary, which will also to help secure the setting to Woodcut Farmhouse (Grade II listed) and the amenity of residential properties at Chestnuts and White Heath. Tracts of structural landscaping will extend into development areas of at least 15m in width.	
4. An area of 9ha to the north and north west of Woodcut Farm is secured as an undeveloped landscape area in the form of open woodland including the addition of a landscape buffer of at least 30m along the eastern boundary. Future management of this area will be secured by means of legal agreement and maintained in perpetuity.	
<ol> <li>Larger footprint buildings <u>will be</u> are accommodated in the field to the east of the stream up to a maximum unit size of 10,000sqm <u>5,000sqm</u> with building ridge heights not to exceed 12m. Units should be orientated end-on to predominant views to and from the AONB.</li> </ol>	
6. Development on the field to the west of the stream comprises smaller <u>units of up to 2,500sqm footprint</u> with g. <u>G</u> raded building heights <del>that</del> <u>will</u> take account of the site's topography with building ridge heights not to exceed 8m. <u>On the highest part of the site to</u> <u>the east of the Woodcut Farm complex at and above the 55m contour line as shown on the policies map, building footprints will be</u> <u>limited to 500sqm</u> . The siting, scale and detailed design of development must have regard to the <u>preservation of</u> Woodcut Farmhouse (Grade II) and its setting.	
[additional criterion] <u>X. The development proposals are designed to limit their visual impact including through the use of curved roofs on buildings, non-</u> <u>reflective materials, sensitive colouring, green roofs and walls on smaller footprint buildings (500sqm and below), and sensitive</u> <u>lighting proposals. Buildings should include active frontage elements incorporating glazing, and address both the A20 and M20.</u>	
[additional criterion]	
<u>Y. Land to accommodate a minimum of 3.300sqm of floorspace within Use Classes B1(a) and B1(b) will be provided with vehicular access and all necessary services including drainage and electrical power supply to the boundary of the plot prior to the first occupation of any units falling within Use Classes B1(c), B2 or B8.</u>	
Landscape and ecology 7. The development proposals are designed to take into account the results of a landscape and visual impact assessment (LVIA) undertaken in accordance with the principles of current guidance. The assessment will specifically address the impact of development on views to and from the Kent Downs AONB escarpment. This will include environmental enhancements of the wider landscape beyond the allocation boundaries through financial contributions using the mechanism of a S106 agreement.	
8. The development proposals are designed to take account of the results of a phase 1 habitat survey and any species specific surveys that may as a result be necessary, together with any necessary mitigation and significant enhancement measures.	
Archaeology 9. The proposals are designed to take account of the archaeological interest on the site as revealed through appropriate survey.	

		Access 10. Vehicular access to the site will be from A20 Ashford Road.		
		Highways and transportation 11. Improvements to capacity at the A20/Willington Street junction.		
		12. Package of measures to provide bus stops, pedestrian refuges and improvements to the footway on the northern side of the A20 Ashford Road.		
		<ul> <li>13. Development will contribute, as proven necessary through a Transport Assessment, to improvements at the following junctions: <ul> <li>i. the M20 Junction 8 (including the west-bound on-slip and merge);</li> <li>ii. the A20 Ashford Rd/M20 link road roundabout;</li> <li>iii. the A20 Ashford Rd/Penford Hill junction;</li> <li>iv. the A20 Ashford Rd/Eyhorne Street/Great Danes Hotel access; and</li> <li>v. the Willington Street/A20 Ashford Rd junction.</li> </ul> </li> </ul>		
		14. Development will deliver a significant package of sustainable transport measures to secure access to the site by a range of sustainable modes, including the provision of a subsidised bus route, and must be supported by the implementation of a Travel Plan.		
		Minerals safeguarding		
		15. This site falls within the Minerals Safeguarding Areas as shown on the policies map and therefore development proposals will be required to undertake a minerals assessment to assess the viability and practicability of prior extraction of the minerals resource. The minerals assessment will comply with Policy DM7 of the Kent Minerals and Waste Local Plan (2013-2030) and any supplementary planning guidance produced by the Minerals Planning Authority in respect of minerals safeguarding."		Changes to policy to reflect consistency with national/coun ty policy and to improve the effectiveness of these policies.
Policy DM1 Principles of Good Design	PC/48; PC/109	Amend criterion iv to read: "Respect the amenities of occupiers of neighbouring properties and uses and provide adequate residential amenities for future occupiers of the development by ensuring that development does not result in, <u>or is exposed to</u> , excessive noise, vibration, odour, air pollution, activity or vehicular movement, overlooking or visual intrusion, and the built form would not result in unacceptable loss of privacy or light enjoyed by the occupiers of nearby properties". Amend criterion v. as follows: " where the retention and addition of native vegetation appropriate to local landscape character <del>along the site frontage</del> <u>around the</u>	Minor	Minor amendment to policy
		site boundaries, should be used as a positive tool".		
Policy DM3 Historic and Natural Environment supporting text	PC/129	Amend Policy DM3 as follows: Policy DM3 Natural Environment (paragraph numbering to be added when plan fully restructured to reflect other changes)	Main	To ensure the policy is positively prepared, justified,
		17.11 Maidstone's historic and natural environment is a fundamental part of the borough's economic wealth and social wellbeing, the		effective and

	benefits of which are far-reaching. It is essential to ensure these historic and natural assets bases remain robust and viable.	consistent with national
	<ul> <li>17.12 Historic environment</li> <li>Maidstone has been shaped and influenced by a long past history, the legacy of which is a strong and rich cultural heritage. The Archbishop's Palace and Leeds Castle are two high profile heritage assets but the borough also abounds with many other historical buildings. These heritage assets contribute to the strong sense of place which exists across the borough. However, this rich historical resource is very vulnerable to damage and loss. The local plan allows some flexibility for the re-use and conversion of historic assets but care must be taken to ensure this does not lead to unacceptable adverse impacts. Small scale changes over time, especially the standardisation of building materials and practices can erode the special character and appearance of places, and the setting of historic features such as listed buildings and scheduled monuments, which can be crucial in maintaining historic integrity.</li> <li>17.13 The local plan will ensure the qualities and local distinctiveness of the historic environment are recognised and protected. This will be achieved in part through the protection of Scheduled Ancient Monuments, Listed Buildings and Conservation Areas from inappropriate development. The local plan will seek to encourage a greater understanding of designated and non-designated heritage assets and their values through partnership working with communities, developers and asset managers. The council will encourage mutually beneficial and sustainable proposals to conserve and enhance heritage assets for future generations whilst acknowledging the social and economic challenges faced by land owners and managers.</li> <li>17.14 All development proposals will be expected to be accompanied by an initial survey to establish what on site assets there are. Sufficient information to assess the direct and indirect effects of development on past or present heritage assets together with any proposed prevention, mitigation or compensation measures will also be required.<td>policy.</td></li></ul>	policy.
	17.18 The growth proposed in the borough provides a chance to increase the value of accessible green spaces and blue corridors. New development will be expected to contribute towards the goal of a linked network which extends across the borough and beyond. Development schemes will be expected to contribute towards improved connectivity through the provision of footpaths and cycle routes that are part of a strategic network; space for nature that contributes to the larger landscape-scale pattern of connected habitat; and the provision of imaginative recreational facilities that give educational and physical health benefits to local people. The council will liaise with neighbouring local authorities, including Kent County Council, to ensure potential linkages at all scales and across administrative boundaries are recognised in the development of specific proposals. Developers will also be expected to provide details of how the green and blue infrastructure elements of their proposal, including publicly accessible open spaces, sites managed for their biodiversity, <u>or</u> geodiversity <del>or heritage</del> -interest, will be managed and maintained over the long-term.	
	<ul> <li>Policy DM3 —Historic and n<u>N</u>atural environment</li> <li>1. To enable Maidstone borough to retain a high quality of living and to be able to respond to the effects of climate change, developers will ensure that new development protects and enhances the historic and natural environment, where appropriate, by incorporating measures <u>where appropriate</u> to: <ol> <li>Protect positive historic and landscape character, heritage assets and their settings, areas of Ancient Woodland, veteran trees, trees with significant amenity value, important hedgerows, features of biological or geological interest, and the existing public rights of way network from inappropriate development and ensure that these assets do not suffer any <u>avoid significant</u> adverse impacts as a result of development;</li> <li>Avoid damage to and inappropriate development considered likely to have significant <u>direct or indirect</u> adverse effects on:</li> </ol> </li> </ul>	
	<ul> <li>a. Cultural heritage assets protected by international, national or local designation and other non-designated heritage assets recognised for their archaeological, architectural or historic significance, or their settings;</li> <li>b. <u>a.</u> Internationally, nationally and locally designated sites of importance for biodiversity; and</li> <li>e. <u>b.</u> Local Biodiversity Action Plan priority habitats.</li> <li>iii. Control pollution to protect ground and surface waters where necessary and mitigate against the deterioration of water bodies and adverse impacts on Groundwater Source Protection Zones, and/or incorporate measures to improve the ecological status of water bodies as appropriate;</li> <li>iv. Enhance, extend and connect designated sites of importance for biodiversity, priority habitats and fragmented Ancient Woodland; support opportunities for the creation of new Biodiversity Action Plan priority habitats; create, enhance, restore and connect other habitats, including links to habitats outside Maidstone Borough, where opportunities arise;</li> </ul>	

v. Provide for the long term maintenance and management of all heritage and natural assets, including landscape character, associated with the development; vi. Mitigate for and adapt to the effects of climate change; and vii. Positively contribute to the improvement of accessibility of natural green space within walking distance of housing, employment, health and education facilities and to the creation of a wider network of new links between green and blue spaces including links to the Public Rights of Way network.
2. Protect and enhance the character, distinctiveness, diversity and quality of Maidstone's landscape and townscape by the careful, sensitive management and design of development.
<ol> <li>Where appropriate, development proposals will be expected to appraise the value of the borough's historic and natural environment through the provision of the following:</li> <li>An ecological evaluation of development sites and any additional land put forward for mitigation purposes to take full account of the biodiversity present, including the potential for the retention and provision of native plant species;</li> <li>Heritage and arboricultural assessments to take full account of any past or present heritage and natural assets connected with the</li> </ol>
development and associated sites; and iii. A landscape and visual impact assessment to take full account of the significance of, and potential effects of change on, the landscape as an environmental resource together with views and visual amenity.
4. Publicly accessible open space should be designed as part of the overall green and blue infrastructure and layout of a site, taking advantage of the potential for multiple benefits including enhanced play, wildlife, sustainable urban drainage, tree planting and landscape provision. The form and function of green infrastructure will reflect a site's characteristics, nature, location and existing or future deficits.
5. Development proposals will not be permitted where they lead to adverse impacts on natural and heritage assets for which mitigation measures or, as a last resort, compensation appropriate to the scale and nature of the impacts cannot be achieved. <u>When</u> significant harm cannot be avoided through consideration of alternative sites or adequate mitigation provided on-site within the immediate locality, compensatory measures will be achieved within the relevant Biodiversity Opportunity Area, or other location as agreed by the Local Planning Authority.
<u>6. Development proposals will give weight to the protection of the following designated sites for biodiversity, as shown on the Policies Map, which will be equal to the significance of their biodiversity/geological status, their contribution to wider ecological networks and the protection/recovery of priority species as follows:</u>
i) For internationally designated sites (including candidate sites), the highest level of protection will apply. The council will ensure that plans and projects proceed only when in accordance with relevant Directives, Conventions and Regulations. When the proposed development will have an adverse effect on the integrity of a European site, planning permission will only be granted in exceptional circumstances, where there are no less ecologically damaging alternatives, there are imperative reasons of overriding public interest and damage can be fully compensated.
<i>ii)</i> For nationally designated sites (including candidate sites), development will only be permitted where it is not likely to have an adverse effect on the designated site or its interests (either individually or in combination with other developments) unless the benefits of the development at this site clearly outweigh both the impacts that it is likely to have on the features of the designated site or and any broader impacts on the national network of Sites of Special Scientific Interest. Where damage to a nationally designated site cannot be avoided or mitigated, compensatory measures will be sought. Development will also accord with and support the conservation objectives of any biodiversity site management plans;
<i>iii)</i> For locally designated sites (including draft published sites), development likely to have an adverse effect will be permitted only where the damage can be avoided or adequately mitigated or when its need outweighs the biodiversity interest of the site. Compensation will be sought for loss or damage to locally designated sites.
Account should be taken of the Landscape Character Guidelines SPD, the Green and Blue Infrastructure Strategy and the Kent

	Downs AONB Management Plan.		
Policy <del>DM4</del> <u>DM5</u> Action Development on 11.1 Brownfield Land	Amend Policy DM4 <u>DM5(2)</u> Development on brownfield land Exceptionally, the residential redevelopment of brownfield sites in the countryside <u>which are not residential gardens</u> , which meet the above criteria <del>and which are in close proximity to Maidstone urban area, a rural service centre or larger village</del> will be permitted provided the redevelopment will also result in a significant environmental improvement and the site is, or will be made, demonstrably accessible by sustainable modes to Maidstone urban area, a rural service centre or larger village.	Main	To ensure the policy is positively prepared and justified.
Policy DM <del>5</del> <u>6</u> Air Quality ) Action 11.2		Main	To ensure the policy is consistent to national policy

	Proposals that have an impact on air quality that meet the following criteria will be permitted:		
	1. Proposals located close to identified air quality exceedance areas as defined through the Local Air Quality management process		
	will require a full Air Quality Impact Assessment in line with national and local guidance;		
	win require a full Air Quality Impact Assessment in line with national and local guidance,		
	2. Proposals within or adjacent to Air Quality Management Areas that are likely to have a negative impact on air quality should		
	identify sources of emissions to air from the development and an Emissions Statement identifying how these emissions will be		
	minimised and mitigated against must be provided; and		
	3. Proposals in or affecting Air Quality Management Areas or of a sufficient scale to impact local communities should, where		
	necessary, incorporate mitigation measures which are locationally specific and proportionate to the likely impact.		
	necessary, meetporate magaton measures when are locationary specific and proportionate to the intery impact.		
	Proposals that have an impact on air quality will be permitted, subject to the following criteria being met:		
	1. Proposed that have an impact on air quality will be permitted, subject to the following criteria being met		
	<ol> <li>Proposals that have an impact on air quality will be permitted, subject to the following criteria being met:         <ul> <li>Proposals for development which have the potential, by virtue of their scale, nature and/or location, to have a</li> </ul> </li> </ol>		
	negative impact on air quality at identified exceedance areas, as defined through the Local Air Quality		
	Management process, will be required to submit an Air Quality Impact Assessment (AQIA) to consider the		
	potential impacts of pollution from individual and cumulative development, and to demonstrate how the air		
	quality impacts of the development will be mitigated to acceptable levels;		
	ii. Proposals for development which have the potential, by virtue of their scale, nature and/or location, to have a		
	significant negative impact on air quality within identified Air Quality Management Areas will be required to		
	submit an AQIA to consider the potential impacts of pollution from individual and cumulative development,		
	and to demonstrate how the air quality impacts of the development will be mitigated to acceptable levels,		
	even where there will be no negative impact at identified exceedance areas;		
	<i>iii.</i> Other development proposals, where criteria 1 and 2 do not apply, but which by virtue of their scale, nature		
	and/or location have the potential to generate a negative impact on air quality within identified Air Quality		
	Management Areas will not be required to submit an AQIA, but should demonstrate how the air quality		
	impacts of the development will be minimised.		
	iv. <u>Development proposals which have the potential, by virtue of their scale, nature and/or location, to have a</u>		
	significant negative impact on air quality outside of identified Air Quality Management Areas will submit an		
	AQIA to consider the potential impacts of pollution from individual and cumulative development, and to demonstrate how the air quality impacts of the development will be mitigated to acceptable levels.		
	<u>demonstrate now the air quality impacts of the development will be mitigated to acceptable levels.</u> 2. In order to provide further clarity, the Council will produce an SPD to address air quality in partnership with the		
	<i>Environmental Health team and in accordance with the emerging Low Emissions Strategy.</i>		
Policy DM <del>6</del> 7 PC/111	Amend policy to read:	Main	To ensure the
Non-Conforming	<b>DM 6</b> <u>Z</u> : Proposals for development which could create, intensify or expand noisy or noxious uses, or which could <u>potentially</u>		policy is
Uses	generate volume or types of traffic unsuited to the local area, will only be permitted if they meet such other exceptions as indicated		consistent
	by policies elsewhere in this plan where they do not, by way of their operation, cause nuisance to residents or users in the vicinity,		with
	and where anticipated adverse impacts on the local road network can be mitigated in accordance with Policy DM21. Proposals will		achieving
	also be required to meet other requirements set out elsewhere in this plan.		sustainable
			development
			and is
			therefore
			positively
		<u> </u>	prepared.

Policy DM <del>7</del> <u>8</u> External Lighting	PC/51; PC/112	<ul> <li>Amend Policy DM7 <u>8</u>(1) (iii) as follows :</li> <li>iii. The lighting scheme would not be visually detrimental to its immediate or wider setting, <u>particularly intrinsically dark landscapes</u>.</li> <li>Amend Policy DM7 <u>8</u> criterion 2 to read: "Lighting proposals that <u>are within</u>, <del>neighbour</del> or are near enough to significantly affect areas of nature conservation importance, e.g. <u>Special Areas of Conservation</u>, Sites of Special Scientific Interest, National Nature Reserves, <del>and</del> Count<del>r</del>y Wildlife Sites <u>and Local Wildlife Sites</u> will only be permitted in exceptional circumstances."</li> </ul>	Main	To ensure the policy is consistent to national policy.
Policy DM <del>8</del> <u>9</u> Residential Extensions, conversions and redevelopment within the built up area	PC/113	Amend Policy DM <del>8</del> <u>9</u> to read: 1. Within the defined boundaries of the urban area, rural service centres and larger villages, proposals for the extension, conversion or redevelopment of a residential property which meet the following criteria will be permitted <u>if</u> :	Minor	Clarification
Policy DM11 Housing Mix	PC/123	Amend Policy DM11 as below: Policy <del>DM11</del> <u>SP19</u> Housing Mix 17.58 Developers will need to access a range of sources, including the SHMA, to help shape their proposals. Local stakeholders, including parish councils, may often be able to provide targeted information that assists an applicant to submit a locally relevant scheme. <u>Neighbourhood Plans can also be used as a mechanism to allow some flexibility and local context while contributing to the</u> <u>overarching strategic needs of the borough.</u> Where affordable housing is proposed or required, the housing register will provide additional guidance. Policy <del>DM11</del> <u>SP19</u> (5) Housing Mix 5. The council will work with partners to-facilitate <u>support</u> the provision of specialist and supported housing for elderly, disabled and vulnerable people.	Main	To ensure consistency with national policy and to clarify the Council's role and the relationship between local and neighbourhoo d plans
Policy DM12 Density of Housing Development	PC/124	Amend Policy DM12 as below:         Policy DM12         Density of housing development         All new housing will be developed at a density that is consistent with achieving good design and does not compromise the distinctive character of the area in which it is situated. Development proposals that fail to make efficient use of land for housing, having regard to the character and location of the area, will be refused permission.         Subject to this these overriding considerations:         1. At sites within and close adjacent to the town centre new residential development will be expected to achieve net densities of between 45 and 170 dwellings per hectare.         2. At other sites within and adjacent to the urban area new residential development will be expected to achieve a net density of 35 dwellings per hectare.         3. At sites within or adjacent to the rural service centres and larger villages as defined under policies SP5-10 and SP11-16 respectively new residential development will be expected to achieve a net density of 30 dwellings per hectare.         In other settlements not listed above new residential development will be expected to achieve a net density of the character and location of the hectare.	Main	To ensure the policy is consistent with achieving sustainable development and is therefore positively prepared.

		area, will be refused permission.		
Policy DM13 Affordable Housing	PC/126	Amend Policy DM13 as below:         Policy <del>DM13</del> - <u>SP20</u> Affordable Housing         17.61 Viability testing indicates that affordable housing is achievable across the borough on sites of five or more dwellings. <u>The</u> Ministerial Statement published 28 <sup>th</sup> November 2014 refers to the introduction of a threshold for infrastructure contributions. The         National Planning Practice Guidance refers to circumstances where infrastructure contributions through planning obligations should	Main	To ensure consistency with national policy
		<u>not be sought from developers: affordable housing should not be sought from developments of 10 units or less, and which have a</u> <u>maximum combined floorspace of 1,000m2. The viability testing has assumed the national threshold of 11 dwellings for affordable</u> <u>housing.</u> To support community integration, affordable housing will be provided on-site, and alternative provision will not be accepted unless there are exceptional circumstances that justify it. Any proposals for off-site or financial provision must be made at the time of the application.		
		17.63 In order to respond to the identified need for affordable housing of different tenures through the period of the plan, the council will seek an indicative target of 70% affordable rented or social rented housing, or a mixture of the two, and 30% intermediate affordable housing (shared ownership and/or intermediate rent). This ratio was used for strategic viability testing purposes and has been shown to be viable. Specific site circumstances may affect the viability of individual proposals and the council recognises that the need for different tenures may also vary over time [2].		
		[additional paragraph] <u>17.xx The Government has introduced a vacant building credit to incentivise brownfield development on sites containing vacant</u> <u>buildings. In considering how the vacant building credit should apply to a particular development, the council will consider whether</u> <u>the building has been made vacant for the sole purposes of redevelopment and whether the building is covered by an extant or</u> <u>recently expired planning permission for the same or substantially the same development.</u>		
		[2] Through the new Housing and Planning Bill 2015 Act 2016, the Government has signalled its intention to place is placing a duty on local planning authorities to require a proportion of Starter Homes on all reasonably-sized sites. Secondary legislation is expected early 2017and the The council will maintain a watching brief and respond as appropriate.		
		Policy <del>DM13</del> <u>SP20</u> Affordable Housing On housing sites or mixed use development sites of <del>five <u>11</u> residential units <u>(gross)</u> or more, <del>and</del> <u>or which have a combined</u> <u>floorspace of greater than 1,000m2 (gross internal area),</u> the council will require the delivery of affordable housing.</del>		
	PC/65; PC/127	Amend supporting text to read: Policy DM <del>14</del> <u>13</u> <u>Affordable</u> Local Needs Housing <u>on Rural Exception Sites</u>	Main	To ensure consistency with national
		17.73 <u>Affordable</u> local needs housing seeks to address the lack of general supply by allowing the development of exception sites under agreed local needs, sustainability and environmental criteria. <u>Exception sites are small sites in locations where sites would not</u> <u>normally be released for housing development.</u> The housing must remain affordable in perpetuity and priority will be given to occupants who <u>meet relevant criteria, i.e. those who</u> have a specified connection to the settlement – often being residential, employment or family.		policy and to ensure the policy is positively prepared.
		Amend Policy DM <del>14</del> <u>13</u> as below:		
		<u>Affordable</u> Local Needs Housing <u>on Rural Exception Sites</u>		

		<ol> <li>Outside of Maidstone, the five rural service centres and the five larger villages, The the Council will work with parish councils and local stakeholders to bring forward sustainably-located <u>affordable</u> local needs housing at its rural communities. The council will grant planning permission subject to the following criteria.</li> <li>Development has been proven necessary by a local needs housing survey approved by the council which has been undertaken by or on behalf of the parish council(s) concerned. In consultation with the parish council and registered provider of social housing, the council will determine the number, size, type and tenure of homes to be developed after assessing the results of the survey. The council will also use the housing register to determine where there may be unmet housing needs.</li> <li>People meeting the relevant occupation criteria will be given priority to occupy local needs housing (under the council's housing allocation scheme).</li> <li><u>Affordable</u> local needs housing will remain available in perpetuity to meet the need for which it was permitted. This will be secured by planning conditions and/or legal agreements as appropriate.</li> <li>Sustainability of the site and its settlement will be a prime consideration in decision making. The council will give preference to settlements and communities where a range of community facilities and services, in particular school, health, and shopping are accessible from the site preferably on foot, by cycle or on public transport. The site must also be safely accessed to and from the public highway by all vehicles using the site at all times.</li> <li>The scale of development must be in proportion to the context of the settlement where it is located.</li> <li>Where national landscape, ecological and heritage designations are affected by the proposed development, the necessity for development proposals must be proven to outweigh the purpose for which have regard to the designation and its purpose is</li></ol>		
		An affordable and local needs housing supplementary planning document will be produced to expand on how the proposals in this policy will be implemented.		
Policy DM1 <u>65</u> Gypsy, Traveller and Travelling Showpeople accommodation	Action 10.4;	Amend paragraph 17.78 as follows: 17.78 Accommodation for Gypsies and Travellers is a specific type of housing that councils have the duty to provide for under the Housing Act (2004). Gypsies and Travellers historically resorted to the Maidstone area because of their involvement in agriculture, particularly hop and fruit picking. <u>Now</u> These patterns have prevailed, especially in the Weald area, and the borough has a significant number of <u>Gypsy and Traveller</u> pitches mostly on small, privately owned sites. Going forward, the aim for the local plan is to contribute towards the creation of sustainable communities by making an appropriate scale of pitch provision which balances the reasonable need for lawful accommodation with the responsibility to protect the environment.	Minor	For clarity
Policy DM165 Gypsy, Traveller and Travelling Showpeople accommodation	PC/108; Action 10.6	Policy DM165; Amend criterion 2 as follows; 2. The development would not result in inappropriate <u>significant</u> harm <u>to</u> the landscape and rural character of the area, in particular the Kent Downs Area of Outstanding Natural Beauty, and the openness of the Metropolitan Green Belt. Impact on	Main	For consistency with national policy.
Policy DM17 <u>6</u> Town Centre Uses	PC/99; PC/100; PC/101	Add a new paragraph after paragraph 17.82 to read; <u>17.82a A proposal for small scale rural development related to the expansion of an existing rural business or retail development will not be required to comply with Policy DM176. Such development will be assessed under the terms of Policy DM37 or DM40 respectively. Amend paragraph to read: 17.83 <u>An impact assessment will be required for proposals above the Framework's specified threshold of 2,500sqm.</u> In assessing the impact of proposals</u>	Main	To ensure consistency with national policy.
		In Policy DM176 add `or' the end of criterion 1(ii) as follows:		

		1(ii)of a site allocated for the use proposed. <u>Or</u>		
		Include additional criteria 1(iii) and (iv) to state: (iii) The development is in the countryside and is in accordance with Policy DM37 or Policy DM40; Or		
		(iv) The development is designed to only serve the needs of the neighbourhood		
Policy DM20 Economic	PC/96; PC/98	Amend Policy <del>DM20</del> <u>SP21 (vii)</u> to read:	Minor	For clarity
Development		vii. Prioritising the commercial re-use of existing rural buildings in the countryside over conversion to residential use, <i>in accordance</i> with Policy DM31; and		
		Amend Policy DM20 SP21 (viii) to read: viii. Supporting proposals for the expansion of existing economic development premises in the countryside, including tourism related development, provided the scale and impact of the development is appropriate for its countryside location, <u>in accordance with Policy</u> DM37.		
Policy DM21	PC/66;	Additional criteria to read (in new strategic policy SP22):	Main	To ensure
Retention of Employment Sites	PC/67	"X. Within designated Economic Development Areas, the redevelopment of premises and the infilling of vacant sites for business uses will be permitted." and		the policy is positively prepared in
		" <u>Y. Demonstrate that development complies with the requirements of policy DM5 <u>6</u> for air quality.</li> </ul>	Main	To Ensure consistency with national policy and to reflect changes to the structure of the Local Plan.
Policy DM2 <del>8</del> <u>4</u> Renewable and Low Carbon Energy Schemes	PC/115	Amend DM2 <del>8</del> 4(2) to read: 2. The landscape and visual impact of development, <del>with particular regard to any impact <u>development within the</u> on, or the setting of, the Kent Downs AONB <u>or its setting</u> or the setting of the High Weald AONB.</del>	Main	To ensure consistency with national policy.
Policy <del>DM34</del> <u>DM30</u> Design Principles in the Countryside	PC/120; ED 026	Policy <del>DM34</del> <u>DM30</u> Design principles in the countryside Outside of the settlement boundaries as defined on the policies map, proposals which would create high quality design, <u>satisfy the</u> <u>requirements of other policies in this plan</u> and meet the following criteria will be permitted: Where proposals meet criterion 1, development in the countryside will be permitted if:	Main	To ensure consistency with national policy and the achievement of sustainable development.

		1 The time string metavials and design many and solar for the start and the last for the start of the start o		1
		<u>1 The type, siting, materials and design, mass and scale of development and the level of activity would maintain, or where possible,</u> enhance local distinctiveness including landscape features;		
		<u>ermanee local alstinetiveness merading landscape leatares</u>		
		<u>2 Impacts on the appearance and character of the landscape would be appropriately mitigated. Suitability and required mitigation</u> will be assessed through the submission of Landscape and Visual Impact Assessments to support development proposals in appropriate circumstances;		
		1. Conserve and enhance the landscape and scenic beauty of the Kent Downs AONB and its setting;		
		2. Outside of the Kent Downs AONB, not result in harm to the identified landscapes of local value, landscapes which have been shown to have a low capacity to accommodate change, and in all other locations respect the landscape character of the locality;		
		3. Outside the Kent Downs AONB, not result in harm to landscape of highest value and respect the landscape character of the locality;		
		4. <u>Proposals would not</u> result in unacceptable traffic levels on nearby roads; unsympathetic change to the character of a rural lane which is of landscape, amenity, nature conservation, or historic or archaeological importance or the erosion of roadside verges;		
		5. Where built development is proposed, there would be no existing building or structure suitable for conversion or re-use to provide the required facilities. Any new buildings should, where practicable, be located adjacent to existing buildings or be unobtrusively located and well screened by existing or proposed vegetation which reflect the landscape character of the area; and		
		6. Where an extension or alteration to an existing building is proposed, it would be of a scale which relates sympathetically to the existing building and the rural area; respect local building styles and materials; have no significant adverse impact on the form, appearance or setting of the building, and would respect the architectural and historic integrity of any adjoining building or group of buildings of which it forms part.		
		Account should be taken of the Kent Downs AONB Management Plan and the Maidstone Borough Landscape Character Guidelines SPD.		
DM <u>41<i>37</i></u>	PC/97;	Amend Policy DM41 <u>37</u> to read:	Main	To ensure the
Expansion of existing businesses in	Action 11.10	Expansion of existing businesses in rural areas		policy is effective.
rural areas		Where significant adverse impacts on the rural environment and amenity would result from expansion, rural businesses requiring		
		expanded premises should look to relocate to one of the Economic Development Areas identified in policy DM21 or to a site within		
		Maidstone urban area or one of the rural service centres. Where it is demonstrated that there would be no significant adverse impacts on the rural environment or amenity or that relocation cannot be achieved, the expansion of existing industrial or business		
		enterprises which are currently located outside of the settlement boundaries as defined on the policies map will be permitted where:		
		1. Planning permission will be granted for the sustainable growth and expansion of rural businesses in the rural area where:		
		1. There is no significant increase in the site area of the enterprise. Minor increases and rounding off the existing site will be acceptable;		
		2. There is no significant addition of new buildings.		
		( <i>i</i> ) New buildings may be permitted, provided they are small in scale and provided the resultant development as a whole is appropriate in scale for the location and can be satisfactorily integrated into the local landscape; 3. ( <i>ii</i> ) The increase in floorspace would not result in unacceptable traffic levels on nearby roads or a significant increase in use of an		
		existing substandard access; 4. (iii) The new development, together with the existing facilities, will not result in an unacceptable loss in the amenity of the area. In particular the impact on nearby properties and the appearance of the development from public roads will be of importance; and		
		5. (iv) The No open storage of materials will be permitted unless can be adequately screened from public view throughout the year.		

Policy DM <u>4238</u> Supporting text	Action 11.7	<ul> <li>2. Where significant adverse impacts on the rural environment and amenity would result from expansion, rural businesses requiring expanded premises should look to relocate to one of the Economic Development Areas identified in policy SP22 or to a site within Maidstone urban area or one of the rural service centres.</li> <li>Amend supporting text at paragraph 19.30 as follows:</li> <li>Holiday caravan and camp sites provide alternative forms of accommodation which can add to the tourist attraction of the borough. The National Planning Policy Framework recognises the importance of sustainable tourism for a prosperous rural economy. However, the provision of tourist facilities must be balanced against the need to protect the quality of the countryside for the sake of its intrinsic character and beauty. Holiday caravan and camp sites should be located outside the borough's most sensitive landscape areas, in particular outside the Kent Downs AONB, and should not be prominent in the landscape and should be well screened. Proposals must also accord with criteria set out in Policy SP17 in relation to Areas of Outstanding Natural Beauty and Green Belt.</li> </ul>	Minor	For clarity
Policy DM <u>4339</u> Caravan Storage in the Countryside	Action 11.8	Amend Policy DM4339 Criterion 2 as follows: 2. Prior to use of the site commencing, it is comprehensively screened, where possible with indigenous species, on a year round basis. The screening may include bunds, tree and shrub planting and fencing in appropriate locations, and there will be no unacceptable impact on the landscape or environment <u>The site is already well screened year round by buildings and/or planting and</u> that screening is to be reinforced as necessary with planting by indigenous species.	Minor	For clarity
New Policy DM4 Development affecting designated and non-designated heritage assets	PC/131	Addition of a new policy as follows:         Policy DM 4 – Development affecting designated and non-designated heritage assets         The Planning (Listed Buildings and Conservation Areas) Act 1990 provides specific protection for buildings and areas of special architectural or historic interest. When making a decision concerning a listed building or its setting, the Council must have special regard to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses. The Act also places the duty on the Council in making its decisions to pay special architectural or to the desirability of preserving or enhancing the character or appearance of conservation areas in the borough.         The local plan allows some flexibility for the re-use and conversion of historic assets but care must be taken to ensure this does not lead to unacceptable adverse impacts. Small scale changes over time, especially the standardisation of building materials and practices, can erode the special character and appearance of places, and the setting of historic features such as listed buildings and scheduled monuments, which can be crucial in maintaining historic integrity.         Policy DM1 provides clear guidelines about the need for development to be planned and designed in a manner which appropriately responds to its historic context and, where possible, positively enhances the historic character of the locality. Character analysis is provided in supporting documents such as the Conservation Area amangement plans, the Landscape Character Assessment and the specific character area assessment SPDs.         Where development is proposed for a site which includes or has the potential to impact on heritage assets. Significance can be defined in this context as the value of a heritage asset to this and fut	Main	Changes required to ensure that the Local Plan is positively prepared and justified, and to provide a positive strategy for the historic environment to ensure consistency with national policy.

		where possible enhance, the significance of the heritage asset and, where appropriate, its setting;		
		2. Where appropriate, development proposals will be expected to respond to the value of the historic environment by the means of a proportionate Heritage Assessment which assesses and takes full account of;		
		i. any heritage assets, and their settings, which could reasonably be impacted by the proposals;		
		<i>ii. the significance of the assets; and</i> <i>iii. the scale of the impact of development on the identified significance.</i>		
		3. Where development is proposed for a site which includes or has the potential to include heritage assets with archaeological		
		interest, applicants must submit an appropriate desk-based assessment and, where necessary, a field evaluation.		
		<u>4. The Council will apply the relevant tests and assessment factors specified in the Framework when determining applications for development which would result in the loss of, or harm to, the significance of a heritage asset and/or its setting.</u>		
		5. In the circumstances where the loss of a heritage asset is robustly justified, developers must make the information about the		
		asset and its significance available for incorporation into the Historic Environment Record .		
Policy ID1	PC/57;	Amend Policy ID1 (2) third sentence to read:	Main	To ensure the
Infrastructure Delivery	PC/58 (as amende d by PC/137)	Dedicated Planning Agreements (S.106 of the Town and Country Planning Act, 1990) will be used to provide the <u>a</u> range of site specific facilities <u>mitigation</u> , <u>in accordance with the S106 tests</u> , which will normally be provided on-site but may where appropriate be provided in an off-site <u>but may where appropriate be provided in an off-site</u> location or via an in-lieu financial contribution.		policy is positively prepared in respect of infrastructure

Glossary	PC/125	The target adoption date for the review of the Local Plan is April 2021.           The Council will insert a definition into the glossary of the Local Plan as follows:	Minor	Clarification
		<b>Net Density</b> : Residential density is typically defined as the number of dwellings per hectare (dph) and is measured as "net" or "gross". Net density refers to the number of dwellings per hectare on land devoted solely to residential development and associated access roads and car parking. Land to be used for strategic open space/ green infrastructure, education, employment, community facilities (including health care provision) and environmental mitigation is excluded from the density calculation.		
Mapping	PC/70	To include a "Minerals Safeguarding Areas" layer on the policies map.	Main	For consistency with national/county policy.
Mapping	PC/47; PC/83; PC/117; Action 8.6	Amend policies map and inset maps as follows: RMX1(1) Amend the urban boundary to include the site on the Policies Map. Amend the policies map to identify the area excluded from built development.	Minor	Amend cartographical errors

EMP1(54) Amend site allocation boundary to exclude the farm buildings from the landscape area and also to identify the highest part of the site on the Policies Map
Policy <del>DM21</del> <u>SP22</u> Economic Development Areas – amendments to policies map as follows:
Parkwood Industrial Estate, Maidstone - Replace addition to east of the site boundary as detailed on the regulation 18 EDA layer.
The Mall and Riverside quarter sites to be defined on the Policies Map and to have defined boundaries as set out in the Town Centre Study (CEN 002).
The town centre broad location to be identified on the Policies Map by the red-lining of sites
Tovil Green Business Park/Burial Ground Lane, Tovil - Remove additional land to the south as Reg 18, retain amended eastern protrusion. Remove parcel land to the south in line with the regulation 18 EDA layer as this parcel of land has no existing economic usage. Retain amended eastern protrusion from Regulation 19 EDA layer to cover existing economic land use.
Station Road/Lodge Road/Honeycrest Industrial Park, Staplehurst -Amendment to boundary in the west, the parcel of land does not include existing economic development usage.
Pattenden Lane, Marden - amendment to boundary in South West corner to cover all existing economic land usage.
Detling Airfield - Amendment to boundary in South East corner to cover existing economic land usage.
Marley Works, near Lenham - Amendment to site boundary in East to cover existing economic land usage.
Barradale Farm, near Headcorn - Additional site to cover existing economic land usage
Hart Street Commercial Centre, Hart Street, Maidstone - Additional site to cover existing economic land usage
Bearsted Green Business Centre (The Old Forge), Bearsted - Additional site to cover existing economic land usage
Gallants Business Centre, East Farleigh - Additional site to cover existing economic land usage
Woodfalls Industrial Estate, Laddingford - Additional site to cover existing economic land usage
Warmlake Business Estate, near Sutton Valence - Additional site to cover existing economic land usage
Bredhurst Business Park, Westfield Sole Road, Walderslade - Additional site to cover existing economic land usage
Brooklyn Yard, Sandling, Maidstone - Additional site to cover existing economic land usage
South Park Business Village, Maidstone - site boundary amended to cover the north east section of the existing to represent the change of use of the land to the West and South of the site
Turkey Mill Court, Maidstone - site boundary amended to the west North and East to cover existing economic land uses
H1(41) Tanyard Farm, Old Ashford Road, Lenham – Add additional open space allocation either side of PROW KH433
H1(8) West of Church Road – Add additional open space allocation OS1(18)
<ul> <li>Delete Open Space allocations and housing allocations as follows:</li> <li>OS1(14) Former Syngenta works, Yalding</li> <li>OS1(15) Boughton Lane, Boughton Monchelsea &amp; Loose</li> <li>H1(29) New Line Learning, Boughton Lane, Maidstone</li> <li>H1(53) Boughton Lane, Boughton Monchelsea &amp; Loose</li> </ul>

	Drinted Delicies Many		
	Minor modifications to the printed policies map policy number referencing as set out in the erratum slip.		
	Inset maps – amend as follows:		
	SP6 Harrietsham - Inset Map SP6 amend OS(4) to read OS1(6); - Inset Map SP6 amend OS(5) to read OS1(7);		
	<ul> <li>SP7 Headcorn</li> <li>Inclusion of <del>DM21</del> <u>SP22</u> xi. Barradale Farm in the north west corner of the inset map</li> <li>H1 (37) site boundary was amended to the south to include an access road. Revised site boundary needs to be added to inset map</li> <li>Inset Map SP7 amend OS(12) to read OS1(11);</li> </ul>		
	SP8 Lenham - Amended to site boundary of <del>DM21</del> <u>SP22</u> x. Marley works in the North west corner of the inset map		
	SP9 Marden - Amended boundary of <del>DM21</del> <u>SP22</u> vii. Pattenden Lane in the north of the settlement area of the inset map - Inset Map SP9 amend OS(7) to read OS1(8);		
	SP10 Staplehurst -Amendment to site boundary of <del>DM21</del> <u>SP22</u> vi. Station Road/Lodge Road/Honeycrest Industrial Park, Staplehurst on the inset map. - Inset Map SP10 amend OS(10) to read OS1(9);		
	SP13 Coxheath - Inset Map SP13 amend OS(13) to read OS1(12);

	Rename Policy DM24 as Policy SP <del>2223</del> - retain criteria 1) and 2) and merge with DM25 criterion 1) to form a new Strategic Policy in Chapter 4 'Strategic Policies';		plans.
	delete reference to Policy DM25. Move Policy ID1 to the new Chapter 4 'Strategic Policies'.		
	Amend paragraph 2.5:		
	Neighbourhood development plans, which are also called neighbourhood plans, are being prepared by a number of parish councils and neighbourhood forums. A neighbourhood plan attains the same legal status as the local plan once it has been agreed at a referendum and is made (brought into legal force) by the Borough Council. At this point it becomes part of the statutory development plan. Government advises that a neighbourhood plan should support the strategic development needs set out in the local plan and plan positively to support local development. Neighbourhood plans must be prepared in accordance with the National Planning Policy Framework and be in general conformity with the strategic policies of the adopted Maidstone Borough Local Plan ( <i>Policies SP1 to SP22</i> ; H1, H2, OS1, CT1, PMX1, FMP1 and ID1 as well as Strategic Site
