## SA Topic: Flood Risk

Appraisal Question	Criteria	Answer/Evidence
Is allocation of the site within a flood zone?	<b>R</b> = Flood risk zone 3b <b>A</b> = Flood risk zone 2 or 3a <b>G</b> = Flood risk zone 1	<b>G</b> = Flood risk zone 1
Is the proposed use of the site appropriate in terms of guidance set out in the 'Technical Guidance to the NPPF' relating to flood risk? See table 3 (page 8) of the technical guidance.	<b>R</b> = Development should not be permitted <b>A</b> = Exception test is required <b>G</b> = Development is appropriate	<b>G</b> = Development is appropriate.

## SA Topic: Biodiversity and Green Infrastructure

Appraisal Question	Criteria	Answer/Evidence
Is the allocation of the site likely to impact upon an Ancient Woodland (AW) or Ancient Semi-Natural Woodland (ASNW)?	<b>R</b> = Includes AW/ASNW <b>A</b> = <400m from an AW/ASNW <b>G</b> = >400m	<b>G</b> = 490m from an AW/ASNW
Is the allocation of the site likely to impact upon a Site of Special Scientific Interest (SSSI)?	<b>A</b> = Potential impacts identified by County Council Ecologist <b>G</b> = No likely impacts identified at this stage	<b>G</b> = No likely impacts identified at this stage
Is the allocation of the site likely to impact upon a Local Wildlife Site (LWS) or Local Nature Reserve (LNR)?	<b>A</b> = Potential impacts identified by County Council Ecologist <b>G</b> = No likely impacts identified at this stage	<b>G</b> = No likely impacts identified at this stage; 482m from LWS and <b>G</b> = No likely impacts identified at this stage; 5,163m from LNR

1. Site Information		
Number (linked to GIS database)	HO-2	
Site name/address	Bicknor Farm, Sutton Road, Langley

1. Site Information		
Number (linked to GIS database)	HO-3	
Site name/address	Land off Marigold Way, Barming	
Site area (ha)	1.33ha	
Approximate yield	40	
Proposed no. of pitches	N/A	
Site description	<p>The site is located within the urban confines of Maidstone, at the junction of Hermitage Lane and St Andrews Road. It sits within the grounds of a listed former hospital, which has now been converted into flats as part of a comprehensive redevelopment.</p> <p>At present the site is in part overgrown, although the southern section is on somewhat of a plateau that has shorter grass. The area beneath the trees within the northern section of the site is more overgrown.</p> <p>There is a change in levels between the former hospital grounds and the plateau within the southern section of the site. This change in level is approximately 1.5metres.</p> <p>Along the southern and western boundary of the application site is a ragstone wall, which forms the curtilage of the listed hospital – this wall is therefore listed. The wall also returns along the eastern boundary of the application site. The wall is approximately 2metres in height.</p> <p>St. Andrews House is a Grade II listed building, of ragstone construction, which has now been converted (to a particularly high standard) to apartments. This property overlooks the open space to the front of the site, as well as the access road from its western elevation.</p> <p>To the south of the site is St Andrews Road, which is characterised by two storey properties which are set back from the road by approximately 6metres. St Andrews Road is currently a no-through road, and as such on street parking occurs along its length.</p> <p>To the west of the application site is a recreation ground, containing sports pitches and children’s play equipment. This is open on both the Hermitage Lane and Heath Road frontages.</p> <p>To the east of the site are a small cluster of buildings, set behind a high ragstone wall. Further eastwards is a medical centre.</p>

Site description	<p>The site is located to the west of the urban boundary and lies within a countryside location. The site comprises a rectangular shaped site sited to the east of Hayle Place, a Grade II listed former manor house.</p> <p>The area to the east of the site comprises a residential area of 1960's construction. It is a mixed area of single storey and two storey properties within the scale and density reducing to the west of this area.</p> <p>The site area comprises land once associated with Hayle Place and comprises a residential property and its associated curtilage together with an area of rough grassland and associated mature landscaping.</p> <p>Within the vicinity there are a small number of residential properties sporadically placed with most fronting Teasaucer Hill and adjacent to Hayle Place.</p> <p>The land has a sloping topography with the land sloping west towards the Loose Valley. This gradient increases beyond the western boundary of the proposed site.</p> <p>To the north of the site is an area which received planning permission under 12/1848 for a residential development of 127 dwellings and landscape works. This area only was allocated under policy H1 of the MBWLP 2000. Beyond this the urban area extends north with further urban residential development.</p>	
Current use	Part of site comprises the dwelling and residential curtilage of Hayle Cottage. Remainder appears to be rough grassland, possibly used for grazing.	
Adjacent uses	Sporadic residential development with rough grassland and some grazing. Adjacent to urban residential area to east. Residential development under construction to the north - 12/1848.

1. Site Information		
Number (linked to GIS database)	HO-22	
Site name/address	Land north of Cripple Street, Loose	
Site area (ha)	2.08ha	
Approximate yield	73	
Site description	<p>The rectangular site comprises rough grassland with established landscaped borders and is adjacent to the urban area and the properties of Broadoak Avenue. The land has a sloping topography with the land sloping down to the west towards the Loose Valley. This is a slight gradient which increases further to the west of the site.</p> <p>The area to the east of the site comprises a residential area of 1960's construction. It is a mixed area of single storey and two storey properties within the scale and density reducing to the west of this area.</p> <p>Within the vicinity there are a small number of residential properties sporadically placed with most fronting Cripple Street including the Grade II listed Bockingford Court.</p> <p>To the north of the site is an area which received planning permission under 12/1848 for a residential development of 127 dwellings and landscape works. Beyond this, the urban area extends north with further urban residential development.</p>	
Current use	Site appears to be rough grassland, possibly used for grazing.	
Adjacent uses	Adjacent to urban residential area to east. Residential development under construction to the north - 12/1848. Sporadic residential development with rough grassland and some grazing.

Site Description	Site is a commercial site located on Rocky Hill on the northern side of the A26 Tonbridge Road. The site is triangulated by the A20 to the south, A20 London Road to the north and Rocky Hill to the east, which form a gyratory. Site is located on the outskirts of the town centre. The site comprises a car park and shop and is surrounded by a variety of commercial uses (office, retail, and a hotel). There is also large medical centre under construction opposite the site and beyond this, to the south west, are flats. The existing buildings on site are two storeys with the older buildings toward the rear of the site. These appear to be early 20th century with a 1950's extension to the building the front is the more modern.

1. Site Information		
Number (linked to GIS database)	HO-27	
Site name/address	Land north of Howland Road, Marden	
Site area (ha)	2.42ha	
Approximate yield	55	
Site description	This level site comprises a number of scrub fields. It lies on the northern side of Howland Road and wraps round the rear (north) of a number of properties which themselves front Howland Road. The western boundary is defined with a hedge belt and to the north there is a further substantial tree belt beyond which is the railway line. The site fronts directly onto Howland Road in two places; at the western end between the properties Vine Cottage and 8 Grimwood cottages and at the eastern end between 7 Howland Cottages (listed building) and the property Bridgehurst (listed building). The site narrows towards the east; the proximity of the properties' rear gardens to the railway line creates a pinch point in the vicinity of 7 Howland Cottages.	
Current use	Scrub fields	
Adjacent uses	Residential properties fronting Howland Road. Railway line to the north; recreational playing field to the west.

1. Site Information		
Number (linked to GIS database)	HO-29	
Site name/address	Mayfield Nursery, Ashford Road, Harrietsham	
Site area (ha)	1.55ha	
Approximate yield	47	
Proposed no. of pitches	N/A	
Site description	<p>The site is located on the eastern edge of Harrietsham village, south of the Ashford Road, where housing is far more dispersed than on the northern side of the road. The site consists of a large, relatively flat, unmanaged grazing field. The northern boundary of the site runs along the A20, Ashford Road. There are clear views into the site from the A20, mainly because the site lies below road level and the hedgerow along this boundary is intermittent.</p> <p>The eastern and western boundaries are defined by strong hedgerows with trees in places. A tree lined bank encloses the site at its southern boundary and shelters the site from views further south. This wide bank serves the Ashford-Maidstone railway line, which is partly visible through the trees.</p> <p>Two semi-detached dwellings abut the north west boundary of the site, near the point of access, and there is a derelict detached bungalow and two derelict outbuildings near the western boundary. These building were formerly in use as Mayfield Nursery. The dwellings north of the A20, opposite the site, can be described as a mix of 1-2.5 storey semi-detached and detached dwellings.</p> <p>The surrounding fields are in agricultural use.</p>	
Current use	The site consists of a large, relatively flat, unmanaged grazing field.	
Adjacent uses	Residential to north and west, open fields to the south and east.

Site description	<p>This is a large site immediately south of Sutton Road and separated from the urban edge of Maidstone by Langley Park Farm West (an existing allocation in the Maidstone Borough-Wide Local Plan 2000)/Langley Park (the proposed re-allocation of Langley Park Farm West as part of the Maidstone Borough Local Plan process). Sutton Road forms an almost continuous boundary along the northern and eastern edge of the site.</p> <p>The site is visible from Sutton Road but is shielded for the most part by a box hedge along its boundary. When travelling towards the junction of Sutton Road and Horseshoes Lane, there are clear and uninterrupted views of the site's open nature and the spire at St Mary's Church, Langley, a Grade II* listed building. Similarly when travelling towards Maidstone from the south there are clear views of the site as it slopes gently upwards before levelling out nearer to Langley Park.</p> <p>The western edge of the site is in use as a golf driving range and a small number of large detached dwellings adjoin the south west corner of the site. The rest of the site's southern boundary follows the Loose stream which flows into Langley Loch. The site slopes downwards gently in a south easterly direction and the majority of the site is in horticultural use. The only building on the site is a steel framed horticultural building near the junction of Sutton Road and New Road. The central and eastern parts of the site are used to grow plants for Rumwood Nursery.</p>

1. Site Information		
Number (linked to GIS database)	HO-32	
Site name/address	Louverne, Stede Hill, Harrietsham	
Site area (ha)	0.47ha	
Approximate yield	10	
Proposed no. of pitches	N/A	
Site description	<p>This is a small site, which lies approximately 500m to the north of Harrietsham village, in the open countryside of the North Downs Area of Outstanding Natural Beauty (AONB).</p> <p>The site comprises a portion of residential garden land within the curtilage of 'Louverne' to the east of Stede Hill, directly north of St John the Baptist Church and associated graveyard. The topography of the site is relatively flat, with the land to north of the site rising steeply. The site is close to the edge of the existing settlement boundary but is dislocated from the main built up area within Harrietsham. Site is surrounded by a residential dwelling to the north which is accessed from Stede Hill, open fields to the east and the Grade I listed St John the Baptist Church and associated graveyard to the south. There are several other residential dwellings along Stede Hill within reasonable proximity of the site.</p> <p>The site itself is screened from view from Stede Hill on its western, southern and eastern boundaries, but there are direct views of the site from 'Louverne' along the northern boundary.</p>	
Current use	Site is currently in use as a back garden, set within the curtilage of 'Louverne.'	
Adjacent uses	There are open fields adjacent to the site's eastern boundary. Other surrounding uses include residential to the north and a church to the south.

1. Site Information		
Number (linked to GIS database)	HO-33	
Site name/address	Land north of Sutton Road, Langley	
Site area (ha)	3.99ha	
Approximate yield	100	
Proposed no. of pitches	N/A	
Site description	<p>The site is part of a larger site allocated in the Local Plan 2000 (policy H3). The A274, Sutton Road, forms a continuous boundary to the south of the site and Bicknor Wood screens the site in views from White Horse Lane to the north, and from the public footpath to the north-east. Apart from a sporadic hedgerow and two protected trees, the site's western boundary is not clearly defined where it merges with its adjacent previously allocated site to the west.</p> <p>To the south, the southern side of Sutton Road has an urban character and appearance along most of the frontage (Parkwood Estate). This would limit the intrusive effect of housing, since this part of Sutton Road is not wholly rural.</p> <p>Travelling east, the site is visible from Sutton Road and is screened only in parts by trees and hedging along the site's southern boundary. When travelling out of Maidstone the site marks an abrupt end to the town on the northern side of the road and its rural character and appearance make it part of Maidstone's countryside setting.</p> <p>The site is of higher landscape and (potentially) ecological importance than its adjacent site to the west and is more rural in character. There are a number of protected trees on, or adjacent to, the site.</p> <p>The principle of development on this site was established in the Local Plan 2000. It is considered that the site is well located with regard to existing services and is not subject to any major constraint that cannot be carefully mitigated. It has an extensive frontage to a main road, the A274, along which there are regular bus services into and out of Maidstone. It lies immediately opposite a major employment area, Parkwood Industrial Estate and adjacent to the residential area of Parkwood, which has a good range of shops and community services.</p>

Site description	This site is a ploughed agricultural field, with land levels rising towards the centre and falling towards the edges. It lies in a Special Landscape Area and partly within Linton Conservation Area. There is some overgrown, vacant land to the north with a large orchard towards its western side. To the south and west are mainly dwellings. There are also some allotments to the south. The site is an important visual gap giving fine long distance views to a ridge many miles beyond. It lies upon a main arterial route, the A229, into Maidstone.	
Current use	Agricultural

1. Site Information		
Number (linked to GIS database)	HO-45	
Site name/address	Land at Marden Cricket and Hockey Club, Stanley Road, Marden	
Site area (ha)	4.17ha	
Approximate yield	125	
Site description	<p>This rectangular, level site lies at the southern edge of Marden village, to the east of Albion Road and to the south of Stanley Road/South Road. The site comprises pitches, courts and small ancillary buildings used in association with Marden Hockey and Cricket Club. At the western corner of the site is a pavilion building which overlooks a grassed sports area, understood to be a cricket pitch. Further east, and fronting Stanley Road, are two tennis courts and to the rear (south) of these a parking area. East of this again is an artificial sports pitch. A rough grassed area of land is at the far eastern end of the site. This area was not formally laid out as a sports pitch at the time of the site visit (March 2013).</p> <p>The boundary to Stanley Road/South Road comprises a chain linked fence and shrub/hedgerow. The eastern boundary is a more substantial tree belt and the southern and western boundaries comprise a mix of trees and hedges.</p> <p>There is gated access point into the cricket field from Albion Road. There is a further vehicular access from Stanley Road, situated approximately half way along the length of the site, adjacent to the tennis courts.</p> <p>Within the site sports pitches are generally separated from one another with chain link fences. There is a substantial hedge along two sides of the tennis courts.</p> <p>There is a telecommunications mast sited in the south east corner of the site.</p>	
Current use	Sports fields	
Adjacent uses	Residential properties facing the site on the north side of Stanley Road/South Road and on the western side of Albion Road. Immediately to the south of the site is a further residential property, The Howlands and agricultural land. To the east is an area of rough grass land.

1. Site Information		
Number (linked to GIS database)	HO-47	
Site name/address	The MAP Depot, Goudhurst Road, Marden	
Site area (ha)	5.53ha	
Proposed yield	125	
Site description	<p>Part Greenfield part pdl. Situated on west side of B2079 Goudhurst Road, the site comprises the former Marden Agricultural Packers (MAP) Depot (now in use by G G Tomkinson and other companies). These are located on the southern side of the site and accessed by an existing concrete roadway that also serves some dwellings at Gravelpit Farm some 325m to the west. The buildings are surrounded by hardstanding/car park areas. The remaining part of the site is a grass field not actively grazed. The currently defined village envelope of Marden (MBWLP 2000) extends just beyond the site on the eastern side of Goudhurst Road. The site is at lower level than Goudhurst Road which is bounded by a post and rail fence. The site is level. The western site boundary is marked by trees and a land drain. The northern boundary is marked by a ditch. The NE corner of the site bounds four dwellings which have established hedge boundaries with the site.</p> <p>There is a mixture of detached, semi-detached and terraced dwellings on the east side of Goudhurst Road that face the site.</p> <p>South of the site is West Field House a large dwelling in substantial grounds. The boundary with the site is marked by a close boarded fence and also hedge and trees further west into the site.</p> <p>The roof of the largest existing building is partially visible above West Field House when travelling northwards towards Marden on the Goudhurst Road, otherwise the field is not visible until West Field House is passed.</p> <p>From the NW corner of the site across adjoining fields to the north lies the Ashford-Tonbridge railway line which is on a tree lined embankment at this point. The railway line limits views to the north.</p> <p>The land to the west of the site is open level farmland with large fields bounded by established tree and hedge networks.</p>

Number (linked to GIS database)	HO-48	
Site name/address	Land at Glebe Gardens, Lenham	
Site area (ha)	1.34ha	
Approximate yield	11	
Proposed no. of pitches	N/A	
Site description	This site lies to the east of Lenham, just outside of the village boundary. The site comprises a parcel of rough overgrown scrubland to the east of Glebe Gardens, directly south of Old Ashford Road. The northern portion of the site contains the village pond, and a stream runs along the eastern boundary of the site. The site is well-connected with the village of Lenham and is surrounded by an established residential development to the west, some residential dwellings to the north, and open fields to the east and south which are in agricultural use. Due to the number of trees, the site is well screened from all aspects.	
Current use	Site does not appear to be in any use, and is essentially an overgrown scrubland.	
Adjacent uses	There is an established residential development adjacent to the site's western boundary, and dwellings to the north. Other surrounding uses include agriculture to the east and south.

1. Site Information		
Number (linked to GIS database)	HO-49	
Site name/address	466-470 Loose Road, Maidstone	
Site area (ha)	0.53ha	
Approximate yield	5	
Proposed no. of pitches	N/A	
Site Description	<p>The site is within the urban area of Maidstone, some 25m to the south of the junction with Anglesey Avenue. The site incorporates the curtilages of 466, 468 and 470 Loose Road, which lies to the south of Maidstone town centre. 466 Loose Road is a relatively large two storey (detached) dwelling; 468 Loose Road is a modestly sized detached bungalow; and 470 Loose Road is a two storey semi-detached property. All three properties have good sized gardens. These properties are set back more than 15m from Loose Road (A229), with off-street parking and vehicle access onto this highway.</p> <p>The eastern boundary of the site fronts onto Loose Road; the southern boundary runs along the rear boundaries of the bungalows in Anglesey Avenue (and the side boundary of 472 Loose Road); the western boundary runs along the rear boundaries of properties in Skye Close (with the closest neighbour, 7 Skye Close, being some 10m from the application site's western boundary); and the northern boundary in part runs along the southern end of Melrose Close, the side (southern) and rear (western) boundaries of 464 Loose Road and part of the side (southern) boundary 462 Loose Road. All of the surrounding properties that share a boundary with the site are two storey, except for the four bungalows fronting onto Anglesey Avenue. It should also be noted that the properties in Melrose Close (closest to this proposal) do have additional living accommodation in the roof space. The application site is relatively flat with well-maintained lawn areas and relatively large areas of hardstanding to the front.</p> <p>The outer boundaries of the application site largely consisted of 1.8m high close boarded fencing, walls and well established hedging, mostly more than 2m in height; and to the front of the site was a low level brick wall to 470 Loose Road, low level close boarded fencing to 468 Loose Road and a low level ragstone wall to 466 Loose Road. The two Purple Beech trees to the front of the site are protected under Tree Preservation Order no.11 of 2007.</p>

Site name/address	Land at Church Road, Harrietsham	
Site area (ha)	3.75ha	
Approximate yield	113	
Proposed no. of pitches	N/A	
Site description	<p>This site lies approximately 300 metres to the south east of Harrietsham village, just outside of the settlement boundary in the open countryside. The site sits within the setting of the AONB.</p> <p>The site is divided into two parts, separated by Church Road which runs through the centre from the north east to the south west. The area to the west is bounded by a caravan sales site to the west, East Street to the south, Church Street to the east and the A20 Ashford Road to the north. The area to the east is bounded by Church Road to the west, the A20 Ashford Road to the north, Rectory Lane to the east and a number of residential dwellings to the south. The residential dwellings to the south form part of Harrietsham East Street Conservation Area. The site itself comprises two fields, to the west and east of Church Road, with a former oast, farm buildings and yard in the smaller portion to the west. Both fields slope gently down from north east to south west. The western part of the site is essentially an open field with a large corrugated iron shed in the southern corner. The eastern part of the site is slightly higher than adjacent levels along the southern and eastern edges, and is used for grazing. Mature trees and hedges line the northern border of the site and provide good screening from the A20 Ashford Road.</p>

1. Site Information		
Number (linked to GIS database)	HO-75	
Site name/address	Land at Teiseside Nurseries, Lees Road, Laddingford	
Site area (ha)	2.69	
Approximate yield	67	
Site description	<p>The site lies at the northern end of Laddingford village, adjacent to the existing village boundary. Laddingford Village is a small settlement characterised by semi detached family housing, and is located approximately 2.5km south of Yalding village.</p> <p>The site is irregular in shape, with frontage along Lees Road for the most part of its eastern boundary. The northern boundary of the site is separated from a large detached residential dwelling and garden by a strong hedgerow and mature trees. An old nursery building sits near the northern boundary of the site and is served by an access lane from Lees Road.</p> <p>The entire western boundary of the site abuts the River Teise, which is a tributary of the River Medway. To the south, the site boundary abuts a PROW, which links Lees Road with Gravelley Ways to the west.</p> <p>The site, once a working nursery, is now largely overgrown. The boundaries of the site are screened from view by mature trees and there are groups of trees dispersed throughout the site. The rest of the site is flat and open with the scrub one would expect after several years of disuse.</p> <p>Opposite the site there is a mixture of detached and semi detached residential properties in linear form along Leese Road. A pub (The Chequers) is set back off the road in close proximity to the site, and the pub garden abuts the site in the south east corner.</p>	
Current use	Site is no longer in use – mostly unmanaged area of land with grassland, areas of scrub and wooded areas.	
Adjacent uses	Residential, commercial.

Prospect House itself is attached to another residential property. When standing on Hunton Road and looking into the site, a considerable number of trees along the site boundary screen the site from view. Large mature trees are dispersed across the whole site, which includes an outbuilding and several areas of scrub.</p> <p>There are a number of large detached residential properties and farm buildings in close proximity to the site (Chainhurst), and dispersed along Hunton Road near the site. However, the overall character of the area is very rural, primarily because there is a large open field separating the site from Chainhurst, a further large open field and farm buildings directly opposite the site, and several large open fields and wooded areas along Hunton Road in the direction of Marden.</p>

Site description	<p>The site lies about 1.5km from Maidstone, south of Vinters Park and with Grove Green on the other side of New Cut Road. Grove Lodge itself is an imposing house dating from the 18th Century with fine views northwards towards Vinters Park. It is enclosed by open land, with a footpath and the school playing field to the south and Vinters Park and grazing land around it. It has a distinct curtilage separate from the application site by fences and hedging.</p> <p>The site comprises paddocks laid to grass which are used for grazing. There are clusters of mature trees and the land dip and rises sharply to the north western side. A tall beech tree stands towards the northern corner of the application site, and other smaller trees stand closer to the frontage. The site also includes a triangular piece of land, also laid to rough grass, separated from the public footpath by a strip of land with trees.</p>

Site description	<p>This is a rectangular shaped site, which lies approximately 800 metres to the west of Harrietsham village, in the open countryside. The site comprises a parcel of land to the east of Greenway Lane and north of Holm Mill Lane. The site itself is relatively flat, with a man-made bank built on the northern boundary. The site is currently in use as a reclamation yard.</p> <p>The site is connected to Harrietsham village by the A20 Ashford Road, and is surrounded by residential dwellings, a residential caravan park, horse paddocks and light industrial buildings. The caravan park is accessed from Greenway Lane and there are several other residential dwellings along Holm Mill Lane within reasonable proximity of the site.</p> <p>The site is screened from view from Greenway Lane on its western boundary and from the rear gardens of the residential dwellings along Holm Mill Lane to the south. There is limited screening along the northern and eastern boundaries of the site, which offer views of open countryside to the north and the neighbouring light industrial buildings to the east.</p> <p>The railway line is approximately 300 metres to the north of the site, and the A20 Ashford Road approximately 200 metres to the south.</p>

1. Site Information		
Number (linked to GIS database)	HO-95	
Site name/address	Land at Farleigh Lane and Gatland Lane, Maidstone	
Site area (ha)	12.51ha	
Approximate yield	240	
Proposed no. of pitches	N/A	
Site description	<p>The site is located to the south of the urban boundary and lies within the Medway Valley. The site has a sloping topography with the land sloping southwards towards the river Medway. The land is bordered by Gatland Lane to the north and an existing residential area, to the west by Farleigh Lane and to the south by the river Medway, Medway Valley Rail line and the Medway walk.</p> <p>Due to the Valley location of the site, significant views across the valley are possible with the proposed site visible from much of the East Farleigh valley area.</p> <p>The site includes a northern part of this land extending from Farleigh Lane in the west to Pitt Road in the east. The site outlined in red extends adjacent the existing farm buildings within this land comprising a number of Grade II listed buildings although it appears that this land is not included within the proposed development which only relates to the blue shaded area.</p> <p>This site is similar although smaller to that submitted for assessment under HO-74.</p>	
Current use	Orchards and agricultural fields	
Adjacent uses	Residential (urban area)

1. Site Information		
Number (linked to GIS database)	HO-96	
Site name/address	Land adjacent to Godfrey House, Eyhorne Street, Hollingbourne	
Site area (ha)	0.51ha	
Approximate yield	10	
Site description	This flat field/pasture land is located between the built up areas of Hollingbourne village which are spread either side of the substantially raised railway line. This land is on the south-east side of the B2163 Eyhorne Street, with its 60m frontage between the small residential cul -de-sac of Claygate and the 2* listed residential property of Godfrey House. This frontage has an established tree/hedge line. It is part of a larger field to the south-east and is not physically separated/defined from that larger field. The rear (south-east) boundary of that larger field consists of dense tall vegetation but its southern boundary only low vegetation. There are open fields and pasture land to the rear, and to the south these rise quite steeply. A public footpath KH198 runs quite close behind these boundaries. Much further south eastwards on higher land is public footpath KH200.	
Current use	Field/pasture	
Adjacent uses	Residential properties adjacent to south- west and north-east. Fields/pasture adjacent to east and south-east.

Number (linked to GIS database)	HO-105	
Site name/address	Land at Moat Farm, Moat Road, Headcorn	
Site area (ha)	7.25ha	
Approximate yield	200	
Proposed no. of pitches	N/A	
Site description	<p>The site lies to the west of Headcorn, and to the north of Moat – which links Headcorn and Staplehurst. Within the south eastern corner of the site are a number of redundant farm buildings. These have direct access onto Moat Road.</p> <p>To the south-west of the site is an electricity substation.</p> <p>To the south of the site is open fields, which has a watercourse running through it. This watercourse runs under Moat Road to the south east of the application site.</p> <p>To the east of the site are residential properties, located both upon Mill Bank (the A274) and Bankfields, a more recent estate.</p> <p>To the north of the site are open fields, as there are to the west.</p> <p>Within the site the land rises as one moves northwards, with a ridge within the site. This change in levels is relatively significant. There are existing field margins within the application site that include trees and shrub planting.</p>	
Current use	Redundant buildings and agricultural use	
Adjacent uses	Residential and agricultural

Number (linked to GIS database)	HO-106	
Site name/address	Rectory Fields, Frittenden Road, Staplehurst	
Site area (ha)	4.13ha	
Approximate yield	120	
Site description	Site slopes up to north, and is bounded and bisected by mature native hedges with mature trees which are likely to be of historic importance. The central east-west hedge runs along a ridge. The site contains a pond. The KM307 public footpath runs through the site and along part of the south west boundary (it appears very well used). Site currently in use for grazing of horses. Existing access from Frittenden Road. Located in close proximity to Staplehurst Conservation Area and a number of listed buildings; due to slope of land the site contributes to their setting. The site is bounded by agricultural land to the north and east by agricultural land, a thin buffer strip of agricultural land separates the site from the settlement boundary of Staplehurst and heritage assets. A dwelling abuts the southern boundary of the site.	
Current use	Agricultural, rough grassland/pasture.	
Adjacent uses	Agricultural, residential.

Number (linked to GIS database)	HO-108	
Site name/address	Land east of Stede Hill and south of Pilgrims Way, Harrietsham	
Site area (ha)	6.09ha	
Approximate yield	152	
Proposed no. of pitches	N/A	
Site description	<p>This is a large site, which lies approximately 0.5km to the north of Harrietsham village, in the open countryside of the North Downs Area of Outstanding Natural Beauty (AONB).</p> <p>The site comprises a parcel of land to the east of Stede Hill, directly south of Pilgrims Way, and slopes steeply in a north/south direction, overlooking the village of Harrietsham and its surrounding hinterland.</p> <p>The site is dislocated from Harrietsham village, and is surrounded by open fields, some of them in agricultural use. There is one residential dwelling bordering the site in the south west corner, which is accessed from Stede Hill, and there are several other residential dwellings along Stede Hill within reasonable proximity of the site.</p> <p>The site itself is screened from view from Stede Hill on its western boundary and from the south, but there are clear and uninterrupted views to the site when viewed from Pilgrims Way, which forms the northern boundary of the site. To the east, the site is screened from view from its neighbouring fields by woodland belt.</p>	
Current use	Open field	
Adjacent uses	There are horse paddocks adjacent to the site's eastern boundary. Other surrounding uses include agriculture (to the west) and residential.

1. Site Information		
Number (linked to GIS database)	HO-110	
Site name/address	Chapel Field, Plain Road, Marden	
Site area (ha)	0.20ha	
Proposed yield	6	
Site description	<p>This is a relatively small site which lies approximately 1.3km to the south of Marden village, in the open countryside. A line of intermittent trees form the northern boundary to the site, allowing views into the site. Low level wooden informal fencing forms the east, south and western boundaries, leaving the site quite open. There are two residential dwellings directly adjacent to the site, on the east and western edges, and as such, have clear views into the site. The southern part of the site borders open fields. The site comprises a flat open field used for sheep grazing, with some fruit trees at the southern end of the site. Access is via Plain Road, a single track narrow lane. The site is dislocated from Marden village, and is surrounded by a mixture of open fields and large residential dwellings with large gardens.</p>	
Current use	Sheep grazing, permanent pasture with several fruit trees.	
Adjacent uses	Residential, agriculture.

1. Site Information		
Number (linked to GIS database)	HO-113	
Site name/address	Land to the west of North Street, Barming	
Site area (ha)	10.24ha	
Approximate yield	35	
Proposed no. of pitches	N/A	
Site description	Currently arable land and orchards. Adjacent to North Street and residential area to the east. Residential area to south. Residential area to north/North Pole Road. Extension of arable land/countryside to west. Land has undulating topography which results in the land rising to the north of the site.	
Current use	Arable land and orchards	
Adjacent uses	Residential to north/east and south. Countryside and farmland to west.

1. Site Information		
Number (linked to GIS database)	HO-114	
Site name/address	Land to the south of Oliver Road, Staplehurst	
Site area (ha)	4.96ha	
Approximate yield	53	
Site description	<p>The northern half of the site comprises overgrown scrub land of brambles and immature and semi mature trees with some areas in the east of the land being rough grassland, the southern part of the site is characterised by more open grassland with immature and semi mature trees, which increase in number and quality in the south and east of this half of the site. The historic boundaries of the site, both around the margins and bisecting the site, are marked by mature native hedges, which contain significant numbers of mature indigenous trees. Site is approximately level. The site is subject to two Tree Preservation Orders (TPO's), TPO1 of 2001, and TPO 3 of 2005. The former protects three areas of land which cover the entirety of the northern half of the site. The latter protects six groups of trees within the southern half of the site, together with four individual Oaks within the site and a further group of trees outside the site, but immediately adjacent to its western boundary, and there are ponds in the close vicinity of the site. The site is bounded to the north by residential development, to the south by agricultural land, to the west by scrubby woodland, and to the east by residential development and agricultural land. Two public rights of way run through the site, the KM311 which runs through the centre of the site from west south west to east north east between the north and south halves of the site, and the KM302A, which runs through the southern half of the site from west north west to east south east. These public footpaths join on the western boundary of the site, continuing in a west north west direction through the countryside. Both footpaths separately join the KM312, which runs along the eastern margin of the site between it and the adjacent housing estate. In addition to these formal public rights of way, the site, in particular the southern part, is criss crossed by a network of informal unmarked footpaths, which are used on a regular basis by local residents.</p>

1. Site Information		
Number (linked to GIS database)	HO-115	
Site name/address	Copper Lane Pasture, Copper Lane, Marden	
Site area (ha)	3.10ha	
Approximate yield	100	
Site description	<p>This irregular shaped site (comprising two fields) lies to the south of Marden village, approximately 800m from the High Street, in the open countryside outside, but adjacent to, the village envelope at its most southerly point along Thorn Road.</p> <p>Strong, high, mature hedgerows along Thorn Road (the western boundary of the site) and Copper Lane (northern boundary) enclose the site. The eastern and southern boundaries of the site have less formal boundaries and the whole site is very much part of the picturesque and unspoilt rural landscape surrounding this area.</p> <p>The land falls gently from north to south from the village centre towards the site, where it eventually flattens out. The result is that there are clear long range views to the site when travelling south on Albion Road towards the site. Development on the site would sit uncomfortable in the surrounding landscape, particularly because there is a large open field to east of Albion Road between the village and the site, which signifies the start of the open countryside. There are also long range views to the site from the orchards to the north west.</p> <p>The village envelope extends along the eastern boundary of Albion Road until it meets the site at the junction of Copper Lane and Thorn Road. The residential properties (mainly semi-detached, period properties) have clear and uninterrupted views of the open countryside directly across the road and to the site itself further south.</p> <p>The site itself is flat and relatively featureless, apart from the strong hedgerows at its boundaries.</p>	
Current use	The site is flat pasture land and is used for sheep grazing.	
Adjacent uses	Agriculture, residential

1. Site Information	
Number (linked to GIS database)	HO-123
Site name/address	Land north of Sutton Road and east of Church Lane, Otham
Site area (ha)	136ha
Approximate yield	440
Proposed no. of pitches	N/A
Site description	<p>This site is predominantly in agricultural use and is best considered in three sections:</p> <p><b>Land at Gore Court and between Gore Court and Downswood.</b> This section of the site is the largest division. It incorporates land to the west of Church Lane, which backs on to Woolley Road and Chapman Avenue – this section of the site is open with no natural internal divisions, sloping gently down from south to north. This land is at a significantly higher level than the houses on Chapman Avenue, which appear to have been constructed within a depression in the land. Land to the east of Church Lane and immediately south of Downswood is currently used for farming purposes. This land is generally open with slight undulations, sloping down towards the north. The land at Gore Court is the most interesting, incorporating woodland along the western boundary (west of Church Lane) and along the eastern boundary. The land bounded by Church Lane on the west and White Horse Lane in the south is open and flat, having been used for arable crops.</p> <p><b>Land adjacent to Bearsted.</b> This section of the site is bounded by Green Hill to the east, the River Len to the north, Downswood/Bearsted to the west and a raised section of the site to the south which is separated by a banked wooded area. This section of the site slopes down from south to north and from east to west. It incorporates a large open bank adjacent to Mallards Park in Downswood.</p> <p><b>Land already allocated or proposed for allocation.</b> The existing MBWLP 2000 greenfield allocation at the southern end of the site has been proposed for re-allocation as part of the Maidstone Borough Local Plan [along with the eastern portion] and in principle agreed by Cabinet on 13 March 2013. Land north of Bicknor Wood, which is immediately south of White Horse Lane, has been proposed for allocation and agreed in principle by Cabinet on 13 March 2013. These sites consist of open, flat fields, in close proximity to the A274 Sutton Road.</p> <p><b>General.</b> The boundary of the site to the east is a variety of paddocks, woodland belts, gardens, orchards and farmsteads.</p>
Current use	The site has a mixture of uses, primarily agriculture and woodland.
Adjacent uses	To the west and north residential uses bound the site (Senacre, Downswood and Bearsted developments). To the east are the Otham and Three Tees residential areas, as well as large open areas of agricultural land. To the south is the A274 Sutton Road and existing MBWLP 2000 Langley Park Farm West allocation (agreed in principle by Cabinet on 13 March 2013 to be re-allocated in the Maidstone Borough Local Plan as Langley Park).

1. Site Information	
Number (linked to GIS database)	HO-143
Site name/address	Land adjacent to Dean Street, East Farleigh
Site area (ha)	17.78ha
Approximate yield	400
Proposed no. of pitches	N/A
Site description	Site comprises mainly open fields, some woodland and very small residential area with dwellings. Main part of the site (the long strip from north to south) is a very attractive, steep sided valley, flanked by woodland. Some woodland to southern end (overlooking the valley) appears to be part of site.
Current use	Mainly agricultural
Adjacent uses	Adjacent uses are woodland and farmland (mainly orchards), a scattering of dwellings, some equestrian use and a scout premises. Some commercial use at Malthouse Cottages site.

1. Site Information		
Number (linked to GIS database)	HO-146	
Site name/address	Lordswood urban extension, west of Sindals Lane and north of Westfield Sole Road, Boxley	
Site area (ha)	21.68ha (of which 7.5ha is proposed for development)	
Approximate yield	300	
Proposed no. of pitches	N/A	
Site description	<p>The site is almost triangular in shape and lies at the south eastern edge of Lords Wood, backing on to Westfield Sole Road. The boundary of the site is drawn in such a way that it is apparent where the extension to North Dane Way (within Medway district) would have continued and connected to a Medway southern peripheral road.</p> <p>The eastern section of the site – essentially all of the land that is not covered by ancient woodland, is proposed for housing development. What this means is that between the development and the existing Lords Wood residential area there would be a significant section of ancient woodland. The ancient woodland would separate the new housing development from the existing housing development.</p> <p>On site, the three fields which would comprise the development are currently used as pasture and contain, among other things, what looks like an old caravan. These fields could currently be characterised as clearings in the woods, this is because at their eastern boundary, fronting on to Sindals Lane, an earth bund has been planted with trees that screens them from the open countryside beyond.</p> <p>The fields are otherwise open and flat and in themselves would pose no real constraint to development.</p>	
Current use	Woodland, pasture	
Adjacent uses	West – Lords Wood residential. East – agricultural land. North – residential and agricultural. South – mixture of commercial, low density residential and agricultural.

Proposed no. of pitches	N/A	
Site description	The site is a parcel of land in remote rural location. There is an existing corrugated shed positioned somewhat centrally and generally poor quality tree coverage. There is some hard standing. The site is visible from the road and a public footpath to the north. Surrounding development is sparse and scattered. The existing site and building have limited visual impact.	
Current use	Unknown status of brownfield	
Adjacent uses	There is generally open agricultural land around the site, with a scattering of dwellings in the vicinity.

1. Site Information		
Number (linked to GIS database)	HO-149	
Site name/address	Land east of South Road, Marden	
Site area (ha)	2.51ha	
Approximate yield	60	
Site description	<p>The site lies in the open countryside adjacent to the village envelope on the eastern periphery of Marden village, and approximately 600m from the village 'centre'.</p> <p>The site is a flat, open field, and is relatively featureless in character. It borders residential properties on South Road to the west and the rear of a number of detached dwellings on Howland Road to the north. Howland Road also forms the eastern boundary of the site, which has a strong hedgerow along its length. There are clear views into the site along this boundary.</p> <p>To southern end of the site has a strong hedgerow and trees along its perimeter. There are four large detached properties in close proximity to the south eastern boundary, which are accessed via a narrow lane along part of the site perimeter. The dwellings do not have clear views into the site due to the number of mature trees in this area.</p> <p>When standing on the public footpath in the south west corner of the site, the character and appearance of the site is wholly in keeping with the agricultural land to the south and to the east beyond Howland Road. In this view there is a scatter of buildings around the edge of the site, but they are not enough to enclose it.</p> <p>There are no long range views into the site but as described above, the open countryside further east is visible. The site is very visible from Howland Road when travelling from the east towards Marden village, and at present forms an attractive gateway to the village, owing much to the strong hedgerow at the site's boundary.</p> <p>Looking across the site from the east, the edge of Marden created by houses in South Road is rather harsh, but from Howland Road at least, this is a distant view softened by the site itself and the hedge on its eastern boundary.</p>	
Current use	Rough grassland – horses were grazing on site.	
Adjacent uses	Residential, agricultural
