---

Good evening.

I would like to express my support for the Boughton Monchelsea Neighbourhood Plan.

I have followed the development of this plan with interest over the preceding months and would comment that this is a viable plan that not only builds on a currently thriving and inclusive village and its community but also plans for the long term future of the village, its residents and businesses.

I would urge Maidstone Borough Council to adopt this plan in its entirety as it is an example of the foresight shown by the Parish to benefit the community as a whole .

Yours Faithfully

Marian Redfearn
