

Hi

I want to strongly oppose the plant to build the above due to the following reasons

Lack of or non existence infrastructure, roads, bus routes, etc

Lost of greenbelt.

Loss of woodland, which is high on the government's climate change agenda

Cultural makeup of the area

School's

Doctors

Number of cars/lorries on the A20

Impact on outlying villages

To name but a few

Please reconsider and build in main towns not the countryside.

Very disgruntled with MBC, who are spending our money without permission
