---

Hi

I am a resident of [REDACTED] and support all the provisions of the Otham Neighbourhood Plan except those that accept the building of Land West of Church Road which is currently going to a public enquiry. Hopefully the enquiry can reject the current application and the local plan can be updated to ensure a proper open space is maintained between Otham and Downswood and the views of the North Downs are maintained.

There is a lot of detailed work here but in summary my support is to:

- Retain the open spaces described as important by the plan.
- Develop and improve PROW so that walking and cycling can be used more extensively as an alternative to use of the private car on already over crowded roads.
- Limit development as much as possible as existing development has already gone way beyond what would be sensible in a rural location like this.

Regards

Duncan Edwards
